II. ... Wet lands depend upon two Tanks - They are in repair - They are
- a branch channel of Mattur - The Tank is filled annually - The pag. 16 says that
15 Acres of the lands are as waste and uncultivated & not being well watered lands &
- they may be cultivated annually if the Tanks are enlarged. These statements are not
- to be depended upon - The Mahajans generally cultivate the lands as waste -
- Wet lands are not cultivated & time & No security of Water is felt - Amount of
No Pungah lands are cultivated - The average income of the Village is Rs 1000 -
is 7 & 800 - This is not true - The contiguous village is Parakkalam. The average
of the Pungah Village of a period of 13 years shows that the amount per acre comes to be 3.
- Area This is false - In consideration of the fertility of soil & the amount of the rainfall
- The Village is follows -
Rs 2000 - Cultivated annually at Rs 1000 per acre - 20 -
