The English account of 1815, it is said that the Pottas of the Village was regulated
 under Regulation XX of 1802 - The Potta contains no boundaries of the Village

The persons of 1839 1841 1850 1857 1860 1864 1869 1876 say that they are descendants
 of the Old Pottas who were of Bramins of various families - & that others are alienies

This point is true by the tradition for the persons 1835 1835 1845 1855 1861 1862 1863
 of 1863 purchased their lands in 1802 1808 1855 for Rupees 220 from Pottas of the Village

The persons of 1857 1858 1861 say that their ancestors purchased their lands in long ago partly by gift & partly by purchase & that
 documents are lost - The Pottas of the Village admit the transaction - The names of the ancestors

of the persons 1857 1858 1861 are entered in the Pottas account of the Village of 1836 -
 The persons 1841 1842 1843 1844 1845 1846 1847 1848 1849 1850 1851 1852 1853 1854 1855 1856 1857 1858 1859 1860 1861 1862 1863

1862 The bills are on plain paper leaves - Three bills are on stamped paper -
 1863 The bills are on plain paper leaves - Three bills are on stamped paper -

The persons 1836 1837 1838 1839 1840 1841 1842 1843 1844 1845 1846 1847 1848 1849 1850 1851 1852 1853 1854 1855 1856 1857 1858 1859 1860 1861 1862 1863

(The end of the list)

The Plaintiff claims 5/16th of the land from the person No 64 of 1860 on the ground - that his late father, who died 50 years ago, mortgaged the land to the father of the person No 68 - about 30 years ago - He is not proved the debt by any means - knowledge of the transactions himself. Plaintiff claims a right to the party is referred to their Civil Court. The Plaintiff bases his claim on the ground that it is entered in the Ramamul Account of 1834, which is only the Village - that the 5/16th is in mortgage with the father of the person No 68. Another Shabaganam is produced that 3/4th is in mortgage with the Plaintiff, by reason that the 3/4th is entered in the Ramamul Account of 1834 about alluded to as it is having being - mortgaged on to the father of the Plaintiff. The Plaintiff Pleaded that the entry in the Ramamul Account is not true - He admits the correctness of the entries which are favourable to him, as correct ones, & denies the correctness of the entries which are unfavourable to him. Generally - the number of shares & the remarks entered in Ramamul Accounts are not true. The Shabaganams made create false entries & write false remarks. Hence the Ramamul Accounts are not true & worthy. But these Accounts contain the names of the shares & the names in the Village. The entries may be depended upon if they agree with the present state of things -

II - - - - - One Ganapathy Iyer, No 20 of 1860, Pleaded that the person No 64 to 69 - an engaging 3/4th of the land. Ramamul Account, who died about 80 years ago without issue, that the 3/4th is entered in the Ramamul Account of 1834 of the Village - as it was in mortgage with the ancestor of the person No 64 to 69 of 1860. The person No 64 to 69 of 1860 Pleaded that these lands were purchased by their ancestor & that the land was lost. He already told in the previous para that the entries in the Ramamul Accounts are not correct. However as the 3/4th is in possession of the person No 64 to 69 - full as admitted by the Shabaganams, since the land 80 or 70 years, the 3/4th is entered in the names of the person No 64 to 69 of 1860 - the long period of enjoyment established full right upon the person No 64 to 69 of 1860 - even if the lands were in mortgage with them -

These persons are
N. S. S.

The Rang's Vakul pleads that the 5 Vakulas purchased by the person No. 36 of 1806, viz. in A.D. 1856 from the "Butaka Nakhyan" are the Rolkrayan property of the gemman & that as they were sold by Butaka Nakhyan, who acquired them previously from Bodagun Rajah, in A.D. 1830, who was not rightful owner of the gemman under the recent decision of the Privy Council, the said five Vakulas should be entered in the name of the Rang Rattama Nakhyan.

The person No. 36 of 1806 pleads that they purchased these 5 Vakulas in A.D. 1856 for Rupees 3080 from "Butaka Nakhyan", daughter of Potunara gemman, daughter of Edin Seta of the mother of Rattama Nakhyan, the present Rang of Loringan, that the said Butaka Nakhyan died who died about 3 years ago - ^{in 1858} not only ^{in 1858} but also she gave to him as a deed of gift said to have been executed when in A.D. 1829 by the Potunara gemman or her father in A.D. 1829 granting to her these five Vakulas as "Christians", together with a Shikharman was issued by the Potunara gemman to the Shikharman intimating them & his having given the 5 Vakulas to Butaka Nakhyan & two Shikharman issued in A.D. 1856 by Butaka Nakhyan to the Shikharman of the village of her having sold the 5 Vakulas to person No. 36 of 1806 - The Mill of 1856 was registered in the Subordinate Court of Madras on the 17 November 1856 - as it appears from a certificate granted by the Judge who was then presiding in the Court. The person No. 36 of 1806 produced the Mill & called the deed of gift & 3 Shikharman orders - The Rang's Vakul also before whom these documents were laid pleads that they are not genuine, because the Accounts of Villages (1829 & 1830 - 1831 & 1832) & an account of Rolkrayan gemman lands forwarded to the collector in A.D. 1830 show that these 5 Vakulas were then in possession of the gemman Bodagun Rajah, who succeeded the Potunara gemman & who was pronounced the an undivided holder of the estate, by the recent decision of the Privy Council - The Vakul again says that he has copy of a Shikharman issued by the said Bodagun Rajah in A.D. 1831 & 1832 confirming upon Butaka Nakhyan the five Rang's in question - The Rang's Vakul again produced two Ogl. Taluk dated 10 January 1839 & 20 January 1840 issued by the then collector Mr. Blackmore, to the change of the title of Loringan, to the name of Yemmenwarani - The Rang's Vakul pleads that the grounds stated are in favour of the Rang (No. 36 of 1806).

36. Rang's Vakul	57	do	(37)	1 wife	2 daughters
37. Rang's Vakul	58	do	(37)	1 wife

(Use preceding rule)

These Tablets are in favour of Butalaka Nakhyan & the sum of Rs 36540-51. Nagalinga } Al (57)
who purchased the 5 Villages from her - These Tablets show that these 5 Villages were } 1 Wife
were granted to Butalaka Nakhyan for her maintenance by her father - } 4 Sons
Gowry Tallappa Tenu, the Patimmar gemini son & that these lands were not }
were improperly attached were released from attachment on a representation of }
of Butalaka Nakhyan & they were made over to her - Butalaka Nakhyan } Al (58)
55 Pivara Rina } 1 Wife
56 Pivara Rina } 2 Sons
57 Pivara Rina } 2 Daughters
Nakhyan & the sum of Rs 36540-51. Nagalinga } Al (59)
58 Pivara Rina } 1 Wife
59 Pivara Rina } 2 Sons
60 Pivara Rina } 2 Daughters
The Tablets admit - }
that these lands are now in possession of the sum of Rs 36540-51. Nagalinga } Al (60)
from the date of the purchase of these lands in 1856 & that these lands - } 1 Wife
have been attached by the gemini son or Rang about a month ago. I don't know } Al (61)
since what Authority the Rang has attached the lands - The Rang } 1 Wife
Tallappa again pleads that these 5 Villages were granted to Butalaka Nakhyan } Al (62)
monthly for her maintenance or as life grant without the Authority of disposing } 1 Wife
of them as she pleases to give - In the Tablets it is said that the 5 Villages were granted to her } 1 Daughter
for her maintenance. The word only mean that this is a life grant - It is not natural }
to consider that a father will grant these 5 Villages to her daughter as life grant }
while he grants a considerable portion of his gemini son to her concubine's sons. }
giving the name of Sub Division gemini son - I again state here that Butalaka }
Nakhyan's father was the Patimmar gemini son. The Rang's Tablet pleads }
that these 5 Villages were granted to Butalaka Nakhyan by a gemini son who was }
pronounced as unlawful owner of the Estate by a recent decision of the Prisi }
Council - It is satisfactorily proved by the Blackbarn's Tablets of 1839 & 1840 }
that Butalaka Nakhyan acquired her lands from her father who was Patimmar }
gemini son. There is not proof assigned to support the genuineness of the Deed of }
gift or produced by the sum of Rs 36540-51. Nagalinga } Al (63)
were granted to Butalaka Nakhyan by Patimmar gemini son - The Mother of Butalaka }
Nakhyan & Matta Nakhyan were wives of the Patimmar gemini son - }
One, Pivara Tenu, husband of Butalaka Nakhyan, also signed that, his wife }
had no authority }
61 Pivara Rina } Al (64)
62 Pivara Rina } 1 Wife
63 Pivara Rina } 2 Sons
64 Pivara Rina } 2 Daughters

Agains the Amos Law, a Husband cannot interfere with the
 Purchase lands of his wife - In the case Husband & Wife never seem
 to have lived amicably in one place - Soon after the death of Bullock & Naylor
 her Husband claimed her property in certain state lands - The Civil Court of
 Ill. was in these Proceedings dated 2^d October/62 released these lands & her
 Not since under attachment. No reason is assigned in the Proceedings -
 At the Bill of sale was registered in the Court, ^{at the husband's} he ought to have objected the
 sale in due time. Now I think the Husband cannot interfere with the
 Lands as they were legally sold to the persons pp 36 to 40 70/6 -

Under the above circumstances, I reject the Name of the Name of George
V. of the Husband of Butaka Sabayan & register the same under the
the name of the persons of 36 to 40 of 16. The Dependants are referred to
List four -

Valuation

DH --- Wet lands depend upon one Tank of large size - It is in repair -
 It is fed by four small streams - They are fed also fed by the waste water of the adjoining villages - The Tank is filled annually - Some of the water is sold
 generally. The Mahajans who just came to prepare Accounts showed 38 Acres as waste land at the time of the settlement. The water in the Tank is not
 much waste in this village & that the Waste lands that are left uncultivated may be brought under plough within the next 30 or 40 years by restoring a Tank which is out
 of repair from time immemorial - The use of the ruined Tank is not required at all as the one Tank in repair is a large one - The Dry lands shown in waste are
 partly cultivated & partly waste - Some of the wet lands are cultivated annually 2 times - Harvest is good. No garden crops are cultivated in this village
 Nanjda & Rajda lands are not of a very superior quality generally - The village is in good state - The average income of the village is 327 Rupees per annum as
 this is not true - The average is calculated for a period of 15 years previous to 1828, of the contiguous 4 other villages of Talai Perumal & Singam
 Pally the average is 7-36 & 6-8 per acre - The average of these two villages comes to 6-4 per acre - The Mahajans say that the soil of the village may be
 divided into 4 parts of the adjacent villages - The average Dry amount of the village varies from 1-2 to 1-3 per acre -

In consideration of the fertility of soil &c I frame the valuation of the Kellogg as follows -

90 ¹/₂ m. at 6 1/2 p.m. 595
29 ¹/₂ m. at 8 p.m. 87
Dry 60 ¹/₂ m. at 10 p.m. 60
Dry 9 1/2 ¹/₂ m. at 4 p.m. 76
