1. Division of the Damarasam in the zemindary of Sivaganga. This was granted by the zemindary of Sivaganga to the Bramins of various families of Kana Gobra & Kana Pulra for subsistence. This is a hereditary grant. This is in unimpaired possession of its holders since the date of the grant. There is no Patta. It was lost. The village is supported by all the accounts of 1012. No. 1012 is about the area or about the boundaries.

2. on the part of the Rangis Taluk. The boundaries correspond to those in the account of 1012. The area of 226 and 432 is situated within the proper limits of the village. It is confirmed here. The village is supported by all the accounts of 1012. The village consists of 34 of real villages. They are enjoyed as shown in the margin. The lands are divided. They are exchanged once in 9 years. But this was not done since the last 40 years. Patta is put on the number of Taluk equally & permanently. The details of the circumstances of the village are same as those of Valandayam. The Regulation which is placed with this. The disputes of the parties & my remarks are apposite to this village in every respect. The documents entered in the Regulation of Valandayam contain the limits of these villages. The Rule of the Regulation of these villages is, that every one should sell or purchase.

Valuation

II. Wet lands depend upon our Tank of large size. It is strongly exposed.

It is fed by a single stream & by the waste water of the adjacent Ayer Villages.

The tanks are filled annually. Scarcity of water is not felt generally. The Melwornamans.

say that 77 Acre of Wet & 8 Acre of Dry are cultivated annually in full & the remaining

lands are partly waste & partly cultivated. This is an usual history. There is some exaggeration

in the matter of waste as appears from individual statements of the Melwornamans.

Some of the Wet lands are cultivated annually 2^d time. The lands thus cultivated is estimated

to be 1/4 or 1/5 of the Wet area. Kanjola & Pungola lands are of a superior quality generally.

No Tambore is raised in the Village. The Village is in good state like the surrounding

Villages. The contiguous Ayer Villages are Pattalur & Chittalur. The average Wet assessment

of these Villages calculated for a period of 15 years previous to 1278 comes to 7-15-3.

& 5 Paces per acre. The soil of this Village may be classed with that of Chittalur,

the average of which is lower than Pattalur. No Tambore is raised in the Village.

The average Dry assessment of the adjacent Ayer Villages comes to 8-12-4.

In consideration of the fertility of soil & of the value of the

Sheet No. 30

17 This is one of the Devadayem villages with the pennisan of Perungalai. This was granted by Pongu King for the support of a ~~man~~ ^{an} ~~niguttaswami~~ ^{niguttaswami} Temple in Mottam. This is a permanent grant. No Patta. The Temple is efficiently kept up. - No Takkara about the area nor about the boundaries on the part of the pennisan. Takkal. Hence the area of 2267 acres is confirmed here. The crops is worked over. All these details are situated within the proper limits of the village. Hence the area of 2267 acres is confirmed here as stated above. The boundaries now wanted in the vernacular register correspond to those in the accounts of 1724-6. Pongu was interested for the pennisan and grant to the permanent settlement from 27-4-1734-46. No Takkara about this since the sum 3467-1/2 is well known dependent on the Patta. Soil is of a superior quality generally. - Average profits of the village on 2357-4 per annum. The village & Temple are in possession of the Trustees since the last 5 or 6 centuries from the time of their ancestors. -
