Register of Dharmasanam Village of Rangyan in Kharad Taluq of Sivaganga Zemindary in Madura District.

# Mela Rangyan & Kela Rangyan

Register No. 326
Sheet No. 423

I This is only a Dharmasanam in the zemindary of Sivaganga - It was granted by the Zemindar sanad to Narayana Dikshitar for entertainment
This is a tendikaly grant. There is uninterrupted possession of its holders since the date of the grant - It is Ekabhogam Pottah. It was lost.
The Village is supported by all the accounts of 12 - In the account of Fasli, the area of Kela Rangyan, Mela Rangyan, Tiruvadanallur & Tamarakolam
is entered in lump - as they were granted by one Zemindar on one & the same date to Narayana Dikshitar & others - In the accounts of Fasli, the area of these
Villages is separately. Of these villages, Tiruvadanallur, fell in possession of others by purchase - The lands of Mela Rangyan & Kela Rangyan are contiguous
to each other. These Villages are treated as one from time immemorial & the lands of these two villages were mingled together & divided into Pangus or Shittes -
The entries in the Jabumai Accounts regarding the Villages under settlement are in a very confused state

II From the Jabumai Accounts & from the accounts of the Mahazanams it appears that the Pomjas of the four Villages entered in the Register is 827-9-4.
& that now 977-14-9 is collected on the same - Of these if the sum of Rupees 64-0-6 of Tiruvadanallur is deducted, the remaining sum is 913-14-3 of these
the share of Mela Rangyan & Kela Rangyan is 793-0-6 & of Tamarakolam is 120-13-9 - Now the Mahazanams are paying annually the sum of
of 913-14-3 in lump as shewn in the 9th Agami, the 3/4 of the Village of Kela Rangyan Mela Rangyan & its Hamlets which is in possession of the Brahmin
Mahazanams was charged originally with a higher rate of Pomjas, while the 1/4 of the Village which is possession of the persons of 71 Caste, connections of the
Zemindar was charged with a lower rate - Hence, of the Pomjas of 793-0-6 of the Village under settlement, Rupees 638-7-3 belongs to 3/4 of the Village & the
remaining sum of Rupees 154-9-3 belongs to the 1/4 of the Village

Note - This Village has 2 Hamlets named Veppangulam & Sembotkulam

Light Pompu was fixed on the Village on Pargana originally in consideration of which it is held by the Connections of the Zemindar. The Pompu paid now is lump for the Village under settlement & for Tamarat Colem is apportioned on these Villages distinctly with reference to the Rate on which Pompu is fixed on Dry & Wet lands then brought to account. In apportioning in this manner, 793-6 fall to the share of the Village under settlement.

Of the entire Village under settlement, 8/16 Village consists of 1045/8 Khattas of an equal balance. They are assigned as shewn in the 4th Sheet of this register. The remaining 8/16 of the Village is held by the Women No. 71 to 74 of 16. The Village of Mela Rangyen, Kela Rangyen under settlement has two Hamlets named Sambal Colem & Vepengolem. The mention of these Hamlets is made in the Account of Fasly 1223 above. The Mukhazanamis produced a document purporting to be a Copy of the Potta of the Village which contains these two Hamlets. The copy of the Potta is not authenticated one.

No Talcars about the Area or about the boundaries on the part of the Zemindars Vakeel. The boundaries of 1280 Khandi the boundaries of Mela Rangyen, Kela Rangyen under settlement corresponded to those in the account of Fasly 1244. Hence the Area of 1280 Khandi 769 Cents is confirmed here. The excess is a marked one. i.e. it is not treated within the proper limits of the Village. (In the English account by (Wise numbers)

Ganga

I. This is not right —

One Sundara Rajenga, following right & Mahajanam of Marakolam - complains that the Mahajanams of the Dammanam under settlement - encroached upon of about 20 cums of Dry-lands & enjoying them since the last 20 years - This is not proved. Hence the plaintiff is referred to Civil Court - The 104 - 10/16 Villages composing the 3/4 Village have been divided into 9 separate - grand divisions - The Melvaram of the 11 - 10/16 Villages composing each Nadu or Grand Division - is shared among the shareholders with reference to the number their shares in the Village Porupu is fixed on the number of Villages equally & permanently.

II. Some of the persons in Col 6 are descendants of the Original Grantee & others are descendants of the Co-parceners of the Original Grantee & others - The persons Nos 3-4-11-20-21-36-37-38-39-40-44-52-53-54-55-56-58 & 59 - purchased lands in AD 1822-1824-1829-1830-1831-1832-1834-1839-1846-1847-1850-1857-1858-1859-1860 & 1863 - for Rupees 4608-74 - From the shareholders in the Agraharam - 9 bills are on plain Palmyra leaves - & 15 are on stamped Palmyra leaves - one is on stamped paper. The getting of the persons Nos 52 & 53 - in Col 6 acquired lands in gift in AD 1822 - from one Tiruvengadamayengar - Deed of gift is on stamped Palmyra leaf. The persons Nos 18 & 19 of Col 6 acquired their lands in gift 30 years ago — from their father Gatherin-law. No deed of gift. The document also is also admitted the transaction -

III. The person No 67 is the grandson of Sivaganga - the person No 68 is his younger brother. The ancestors - the Mahajanams are purchased the Village entered opposite other names long ago from the shareholders in the Agraharam. No bill & sale transaction is admitted by all.

V ---- The lands entered opposite to the Temple No 70 of 16 were purchased from the Mahajanams by one Somasara Pongyan Setty & Vengu Seven & made an endowment of the same to the Temple in A D 1857 & 1858. One deed of gift is on plain & another is on stamped leaf -

VI The Mahajanams & the Vakeel of the Tahsildar No 71 574 of 16 plead that the Village which is entered opposite to the Temple said person No 71 574 of 16 were purchased by the ancestors of the said person No 71 574 of 16 about fifteen years ago & that the lands are in possession of that family uninterruptedly ever since. No documents. The transaction proved to be true & fair by the Mahajanams - by the Tahsildar -

VII --- One Vadagiah Pariah claims 6½ Veltis from the person No 52 of 16 - on the ground that 6½ Veltis were rented out 20 years ago by his father's younger brother to the late father of the person No 52 of 16 & failed to prove the same - The Mahajanams say that the father of the claimant sold in A D 1826 the lands of the father of the person No 52 of 16 & that the bill of sale is in the Moonsiffi Court of Perungudi - It is proved also that in A D 1826, when these lands were attached by the Court, the father of the claimant produced a petition stating that the lands are not of his own & that they were sold to the person No 52 of 16 & that upon this the Perungudi Moonsiffi Court released the lands to the father of the person No 52 of 16 & received a receipt for the same. The lands are in possession of the person No 52 of 16. Hence the claim is rejected & the party is referred to Civil Court.

Vahaikoi

VIII Wet lands are irrigated by 3 Tanks - They are in repair. They are fed by one of the branches of Kodaganaru river. This is an influential river in the District - The Tanks are filled annually. No scarcity of water is felt generally in ordinary seasons. The Mahajanams honestly say that no waste at all in the Village & that all the lands are fully cultivated annually. There may be some waste in some years from one cause or other - Agreeable to Mahajanams say that the following words about "Kuzy Kanaday" for the large extent of lands in the Village, leave some of the lands as waste occasionally through negligence &c ——— Wet lands, the Mahajanams say, are not fully cultivated 2d time. I do not think this is true - At least some of the wet lands might have been cultivated 2d time. No Varbire is raised - The [illegible] lands may be divided into four classes -

Sheet No. 425

1/4 of the area as 1st Class - 1/4 as 2d Class - 1/4 as 3d Class - 1/4 as 4th Class -
& Pote on the whole the soil is of a medium character generally & not of a superior quality -
They say that there are large extents of inferior lands though they are cultivated annually -
& that the Valei of Arulananda runs where grows the Tamil is broad cloth. This is not true
But in dry season, the remnant water in the Tank maybe found broad cloth -
I saw the ruins Arulananda. The Valei is not broad cloth. The contiguous Ayen -
Village is Allea Nagaram. The Tank of the Damasamam Village under settlement
irrigates also. the fields of Allea Nagaram directly. The average Wet assessment of
Allea Nagaram calculated for a period of 12 years viz Fasli 1258. 1258 1260 - 62 - 63 - 64 -
65 - 67 - 68 - 68 - 69 & 70 for which detailed accounts are available, comes to 1075 per annum
This includes also some of the double crop lands. The Mahazanams say that in the Ayen Village
of Allea Nagaram 1/4 of the Wet area of about 200 Acres is cultivated annually 2d time -
under Wells & that they have no means to cultivate Wet lands 2d time -
Allea Nagaram, the contiguous Ayen Village, is not so large as this - Boundary Pillars -
The average wet assessment of the Ayen Village is high. The Mahazanams say that -
the Damasamam lands are much inferior to those of Allea Nagaram. This may be true
to some extent but not to its full extent. The average Dry assessment of the contiguous
Ayen Village varies from 1-4-3 to 0-13-6 per annum. This I saw. The average income of
the Village as per statement of the Mahazanams is 1570 Rupees per annum. This is quite
false. The Mahazanams refer me to the Jamabundy Accounts of Fasli 1258 to 1264 -
in which the Village under settlement was under attachment of the Zemindar from one -
cause or other. It appears that the Village was kept in ruined state when it was under
attachment. From want of proper care. These Jamabundy Accounts are not procurable -
I must say that the Mahazanams entered their net profits as working - Who can boast that
such an extensive & good Village produces only 1570 Rupees annually - When the average of
the contiguous Ayen Village is said to come to 10 Rupees per annum of Wet, cannot these lands
yield at 5 Rupees per annum. In considering the fertility of soil & in framing the valuation
of the Village as follows - with the aid of the Mahazanams - must carefully guarding myself
against arriving at the ready conclusions -
