II. Subsoils in the Village depend on large fault. It is in repair.
Tangle Streams on the surface is filled annually. Quantity of Water is not felt generally.
The Forest on portions of 70 acres are being cultivated annually in fields. They are cultivated
annually 2 times. Soil is of superior quality generally. The average income of the
entire Village is 10000 Rupees per annum as per statement of the Village of the
If the 10000 Rupees are distributed on 89 acres of arable lands the quantity means of
rate per acre comes to 11-3-7. On this rate, the annual or net value of the
portion of 70 acres is 755 to 70. This is from 1 Rupee. I compare the value
of the portion as 755-10000.

III. The present & former owners of the land Co. from the same
-Circle of the same - In the case of the same on the part of the same.

IV One of the young children of James the First ten on the ground that the was granted by
his ancestors it was returned 60 years ago by the Governor arbitrarily. It is proved
that the First ten was originally the property of the family of the Lieutenant & that it was
by the Governor's return some 60 years ago. Hence the Claim is rejected. The pay was
forfeited ought to be claimed the First ten. As this it was added about 60 years
to the Ranger forming the Sub Division, under the sanction of the Board of Revenue
