Volubilis

The lands depend upon the Tank in the open Village of Madugudi. It is fed
by the river Panthar. The Tank is in repair. The fields of the open Village & those of the Village
now under settlement are contiguous to each other. The wet & dry lands (classified as wet & dry
- per cent 66 dry, one partly, cultivated & partly waste. Wet lands are cultivated 2 times a year at 15 per
acre. No grain crops are raised in the Village. Paddy lands are cultivated 2 times with 2 crops & 1
only once. Soil is of a medium fertility generally. Some of the lands are irrigated with water
- they are also under cultivation. The Village is in good state. There are no materials to water here
the average assessment of the adjacent villages. The Maganum average assessment is given in the
margin. Considering the Maganum average assessment is better than the Maganum assessment. The latter
consists of both the good & bad lands. Paddy 2 times average assessment in the adjacent villages
vary from 0-25-7 to 2-4-10. Average price of the Village is 66 per acre for Annam
This is not true. In consideration of the fertility of soil & from the production of the Village as follows
The genuine average is 102-
Wet 17 per acre cultivated annually, in consideration of the
area cultivated 2 times at 60 per acre
Wet 7 per acre partly cultivated & partly waste at
- 20 per acre
The above 7 per acre
