Register of Darmasanam Village of Mulaghanur in Tirtisipur Talug of Sivaganga Zemindary in Madura District

Mulaghanur

(D) [illegible]

Register No. 336

Sheet No. 440

1 This is one of the most important Darmasanams in the Zemindary of Sivaganga. This was granted by Tirumala Raghunatha Setupaty, Zemindar, to the Bramins of various families or of "Nana Gotra" & "Nana Sutra" through one Vaidya Natha Dikshatar for subsistence. This is a hereditary grant. This is in uninterrupted possession of its holders since the date of the grant. This Village has a Patta on two plain Cadjan leaves. This is engraved on a stone in the Village & on a copper plate. The Cadjan Patta is said to be the original ~~[illegible]~~ one which bears the usual marks of the grantor. As the Cadjan leaf is not a durable one, its ~~copy~~ title was copyed on a stone & on a copper plate. This Darmasanam is supported by all the Accounts in col 12. From the English account of A.D. 1815, copy of which is forwarded to the Board of Revenue it appears that the Patta of this Village ~~is~~ was registered ~~[illegible]~~ in the Court under Regulation XXXI of 1802. In the account of F1223 it is said that a copy ~~[illegible]~~ of the Patta etc of the Village was produced in the Hoozoor Cutchery in that year. The Ranys Vakeel Appavaranayagen — who examined the Patta of this Village says that it is a genuine one. No talk nor about the area or about the boundaries on the part of the Ranys Vakeel. The boundaries now inserted in the vernacular statement correspond to those in the Patta written on Cadjan leaves & engraved on a copper plate. The excess is a marked one but it is situated within the proper limits of the Village. Hence the 1363 Acres & 97 Cents situated within the said boundaries are confirmed here. The Mahajanams wrote a remark on the vernacular statement that if it is proved on personal examination that they had encroached upon any Ayan lands ~~that~~ they will return at once to the Zemindar with their produce. Hence there is no room to fear that the Mahajanams encroached upon Ayan lands — (Vide next side)

IV-1/2 --- The person No 154 acquired his lands, that is 1/8 Vutty, entered opposite to his name
in AD 1846 by the then zemindar, who was father of the Ex-zemindar, as gift with ~~[illegible]~~ the right of
Kudyvarum of some other lands - No deed of gift - Enjoyment proved - These were the Rokkayam
or the lands owned as private property distinct from the assets of the Estate paying Peishcush to Govt -
- In his Tabular statement to the Board dated 24 September 56, Mr Parker brought the
circumstance of this alienation to their notice & recommended the restoration of the same to the person
No 154; which was then placed under attachment with the rest of the Estate, the then zemindar being a -
- minor - The Board sanctioned the restoration in their Proceedings dated 8 April 1857 -
Mr Parker entered in his statement the extent of the lands thus alienated to the person No 154 at
8 Cheys or 14 Acres of Wet - These lands are said ~~[illegible]~~ by the Mahajanams & admitted by the Rany's
Vakeel, to be equal to 1/8 Vutties - Of Course Mr Parker gave the extent of the lands on mere -
approximation - That Gentleman in his Tabular statement states thus - "The Claimant has lost or"
"mislaid the Grant". The order on the record No 29 however is sufficient proof thereof." -
The Rany's Vakeel pleads to register these lands in the name of the Rany Rattama Nachiyar
by reason that the grantor was not lawful owner of the zemindary - As it is proved that the Ex-zemindar's
father alienated these 1/8 Vutties to the person No 154 in AD 1846 to be enjoyed hereditarily; that the
person No 154 is enjoying them uninterruptedly & that the Board also confirmed the transaction in -
AD 1857, the Claim of the Rany is rejected & she is referred to the Civil Court - The 1/8 Vutties -
seem to be under attachment since the last 3 months pending a final decision of the Civil Court
regarding all such Rokkiyam lands.

V - One Venkateswarayen claims 1/8 Vutty from the person No 149 at 16 on the ground that -
he purchased it about 2 years ago for Rupees [illegible] from one Venkatarayen & that bill of sale
is on stamped ~~[illegible]~~ paper & that it was registered in the Civil Court - He again says that he
has no enjoyment of the lands & that the bill of sale is with some of his friends at Madura -
The person No 149 says that he purchased 1/4 Vutty, inclusive the 1/8 Vutty which the Claimant -
Venkataramayen claims in AD 1853 for Rupees 150 from Dorasamy Iyen alias -
Venkata Subbayen (son of the aforesaid Venkatarayen) & from one Rawakammal & enjoying the lands ever since - Dorasamy
Iyen is the son of the aforesaid Venkatarayen, who died 18 months ago & ~~[illegible]~~ the bill of sale is -
on a stamped paper - The genuineness of the bill of sale is proved by the witnesses who attested it -
The seller has no other lands than this 1/4 Vutty in the Village which he sold to the person No 149 -
The Claimant Venkateswarayen says that his bill of sale is on a stamped paper & that it is
a registered one but he never produced it before me though I am here since the last -
four months - He again admits that he has no enjoyment of the lands though he purchased them 2 years
ago - As he has no enjoyment of the lands, his claim is rejected & the lands are registered in the
name of the person No 149 who purchased them formally & enjoying them actually - The
Claimant admits that these lands are in possession of the person No 149 —— (Vide next side).

~~The division of property~~ ~~The division of property~~ The agreement of the division of property of 1853 that was executed between the persons No 182 of 16 & his natural brothers — who were ~~the~~ fathers of the persons No 195 196 & 197, shew that the person No 182 has nothing to do with the 1/16 Vritty in question — Hence the lands are registered in the name of the persons No 195 196 & 197 of 16. The lands are in mortgage since long. Still in the agreement of the division of property they fell to the share of the father of the persons No 195 & 196 & to the share of the person No 197 himself — This agreement is produced to me by the person No 182 himself.

IX One Venkateswaraiyen claims 1/64th part of a Vritty from the person No 92 of 16 on the ground that it is the property of his father in law, who died about 5 years ago without male issue. The person No 92 of 16 says that he & his brother were divided brothers & that the division of property took place 5 years before the demise of the father in law of the ~~person~~ claimant; that on the eve of the death of his brother who is the father in law of the claimant, no one supported him; that he took then care of him; that he performed his funeral rites; that he is performing ~~the~~ his annual ceremonies; & that the claimant refused to perform the funeral rites of the deceased & relinquished his right in his property. This is proved to be bonâ fide. The lands are in possession of the person No 92 of 16. Hence the claim of the ~~person~~ claimant is rejected & the party is referred to Civil Court. The 1/64 Vritty is registered in the name of the person No 92 of 16.

X ----- One Chitambaraiyen claims 5/16 of a Vritty from the person No 193 of 16 on the ground that ~~[illegible]~~ this is his father's share & that his father's younger & elder brothers sold the lands improperly to the grand father of the person No 193 sixty years ago — & that he & his father is claiming it ever since. The person No 193 of 16 says that his ancestors purchased one Vritty from the ancestors of the claimant in AD 1802 & that the lands are in his family ever since. The Mahajanams support the right & enjoyment of the person No 193 of 16. Hence the claim is rejected & the party is referred to Civil Court. The bill of sale executed by the ancestors of the claimant is on a plain cadjan leaf. It is quite absurd on the part of the claimant that his own cousins sold 5/16 of his father's share 60 years ago. He pleads that the Mahajanams are entering ~~his~~ the lands in the name of ~~the~~ his father in Karnam Account. This is a ground & this account is a dead letter when the lands were purchased by the ancestors of the person No 193 of 16 & when they are in ~~the~~ possession of the family of the purchaser.

Sheet No. 4. Dormasonam Mulaghamer in Paritipamar Talug of Sivaganga Zemindary in Madura District.

Register No. 336

Sheet No. 443 · Valuation.

This is one of the most important Dormasonams in Sivaganga Zemindary as already stated by me at the head of this Register. At the same the people are very troublesome — It occupied 3 days to complete the settlement of this Village. Wet lands in this Village are dependent upon five tanks. Of these, one is very large & a most important one & four others are small ones. They are in ~~repair~~ perfect repair. They are fed by one branch channel of Vaigayar an influential river in the Village. The Tanks are filled annually in full. The Mahajanams say that the Tanks are filled in the years in which freshes come into the river. Every river must have freshes every year to ~~any~~ a small or a large extent. This Village is not on the bank of the river. It is situated at a distance of about 5 or 6 miles from the River. The Mahajanams express their regret that the Village is not situated on the banks of the river. While those whose Villages are situated on the banks of the River complain that their lands are annually washed away. Scarcity of Water is not felt generally as appears from the individual statements of the large body of the Mahajanams in this Village. Some who are mere talkers say that scarcity of Water is felt in some years. The results of my enquiry go to prove that even in successive unfavourable seasons, scarcity of Water is not felt in the Village. Thus the Village has 5 substantial Tanks & influential supplying Channel conveying water into the Tanks from an influential river. The next question for consideration is what extent of Wet & Dry lands are cultivated annually. The Mahajanams classed only 29 3/4 of Dry as Waste & say that they are of long waste. This is not of a great consequence. In this Village there are 937 Acres of Wet as per statement of the Mahajanams. They say that this is a correct account. I do not allow ~~to~~ the Mahajanams of any part of Country to say that they do not know the real Area of the Village. The shares of the several persons in the Village are ~~now~~ measured continually & they have correct measurement account of the Village But they ~~do not~~ will not bring it out. The Mahajanams added 70 Acres of Wet to the Orgl Wet Area Not classed & 293 Acres of Wet as waste. This is a fictitious transaction altogether. The Mahajanams say that 293 Acres of Wet classed as waste are cultivated partly with dry crops & partly with Wet crops & that the Wet lands that are cultivated with ~~the~~ Dry crops may be brought under plough within the next 10 years & that ~~the~~ some of the Wet lands are cultivated with Dry grain from want of Water ~~&c~~

From hearing carefully the statements of the persons of 16 — I cannot place much confidence of the above statement regarding ~~D~~ Wet lands said to be cultivated with dry grain. It is not improper on the part of the Mahajanams to class Wet lands that are cultivated with dry crops, if it were true, as waste — Hence there is some exaggeration in the matter of Wet waste — In this part of the Country, I ~~am~~ saw personally, Dry & Wet lands are sown with black paddy. ~~The~~ The lands are not irrigated. They yield good produce from occasional falls of rain — Some of the Wet lands are cultivated annually 2d time — Since I wrote the above the Mahajanams say that of the Wet lands which they classed as waste are cultivated mostly with Raggy, irrigated, then these lands are tantamount to garden lands — This came out after putting several questions to them — They said that they call the Wet lands raggy irrigated crops ~~or~~ Dry crops. Some of the Wet lands, viz 3 or 4 Acres are cultivated with Chillies &c — No other garden crops are raised in this Village as per statement of the Mahajanams — The Dry & Wet lands in this Village are not of a very superior quality generally — In detail there are some ~~good~~ superior & ~~infer~~ inferior lands — Most of them may be said are of a superior quality — The Village is in good state — The Mahajanams say that no Dry lands are fit to be cultivated with Wet in future. On the whole the Mahajanams have no ground to find any particular fault with the Village — Harvest is good — The contiguous Ayan Villages are — Monjakuddy, Melamakuddy, Puduokolam & Mullakolam — Of these Mullakolam is a very insignificant Village. It is in ruined state — It is not worth for competition with this Village — The average Wet assessment of Melakuddy & Puduokolam calculated for a period of 12 years previous to F1270 for which detailed accounts are available comes to 6-6-7 & 5-3-7 per acre respectively — The Village of Monjakuddy also is an insignificant & ruined Village — It is not worth for competition with this important Village under settlement — There is another Ayan Village called Kattykulam situated at a distance of about 1½ miles from the Village. It is an important one. It would do well for competition with this Village — The average Wet assessment of that calculated for a period of 13 years previous to F1270 comes to 7-15-8 per acre — But the Mahajanams ~~object~~ plead strongly ~~to~~ that this Village is at a distance from the one under settlement & also they know that the rate of that assessment is higher than the (Vide reverse)

Sheet No. 5 Darmasanam Mulaghanir in Parthipanoor Talook of Sivaganga Zemindary in Madura District

—Contiguous Ayan Villages – the average Dry assessment of the adjacent Ayan Villages – is 1–2– per acre – The Mahajanams as usual ~~[illegible]~~ reduced their net income unduly low – & entered its average to be 2500 Rupees per annum – this is very low – In consideration of all the above Circumstances, I frame the valuation of the Village as follows with much care with the aid of the Mahajanams after guarding myself against arriving at the hasty Conclusions –

Wet 700 Acres of Wet Cultivated annually – at 6½ Rupees per acre ~~at~~ this is the average rate of the contiguous Ayan Village of Mêlakudy } 4550–0

Wet 100 Acres of an inferior quality at 5 Rupees per acre 500–0
