I have no materials to enter the average assessment of the neighboring Villages. The Statement entered in the 2^d page of the Journal
sheet will show the average assessment of the Mayanum in which the Village is situated.

sheet will show the average assessed of the Mayanams in which the Village is situated. Dry Cane in the adjoining open Villages are assessed ~~the~~ with reference to the nature of crops from 1700 to 7 per Acre. Average income of the Village as per statement of the Mayanams are 1620 Pesos per Annum. This is quite false. I name the valuation of the Village as follows with the aid of the Mayanams.

Average income of the village as per statement of the Mahajanams are 1620 Rupees per Annum. With reference to the fertility of soil &c I frame the valuation of the village as follows with the aid of the Mahajanams. The permanent average rate one acre equals - 60 Annas of Gold in consideration of the land cultivated 2 times occasionally - at 4/20 rupees an acre - 270 - 69 Rupees per acre - Thus will equal 46 -

- 60 Acre of Well in consideration of the Cured fullwater 20 times occasionally - at 4 1/2 per acre - 270 -
- 22 Acre of Well now fullwater with the Dry engine at 20 per acre - this will be full - 46 -
- with wet crop this or in next year

- 60 Acres of well watered land at 20 years per acre - present value
- 22 Acres of Well now fallowed with the dry crop at 20 years per acre - present value

84 1/2

Day 162 Here, reconsideration of ill-effects of a few years fallow with
Garden crop, changing the localities annually. } Ld - 3rd 4
121-80

Garden crops changing the localities annually } 121-80

Dry land was not full water 2^d time. No lakes were passed considerable extent of lands as P. was before wrote a remark on the Report that they are unfit for full water.

Register No. 16

Para 2

1 The person N^o 21 of 16 claims the 1/2 Vithy from the person N^o 16 & 17 of 16 on the ground that he mortgaged the lands to the said persons N^o 16 & 17 of 16 -
- in Substantia it is D^o 1843 that more the mortgagee now pleads that the lands are of his own - The person N^o 21 of 16 & the person 16 & 17 are the sons of Jathu younger
& R. R. Brothers. The person N^o 16 & 17 of 16 pleads that the person N^o 21 of 16 has no share in the Village & that the lands entire opposite to their names are
- in the property acquired by their father & not patrimony - They deny that their father & the father of the person N^o 21 of 16 divided their patrimony
some 40 or 50 years ago & failed to prove every point of their allegations - The person N^o 21 of 16 produced an agreement said to have been executed by the person
N^o 16 of 16 in AD 1843 during their patrimony & pleaded that he mortgaged the 1/2 Vithy fell to his share to the person N^o 16 & 17 of 16. The agreement shows that among
other things that the Grand Father of the person N^o 21 of 16 & of the person N^o 16 of 16 laid one thirty six parts & that it was shared equally between them
the person N^o 21 of 16 at half Vithy each - The person N^o 16 of 16 admits that the agreement is genuine one & pleads that the agreement relates to the division
of his Grand Father's property, that his Grand Father's property is not within him - that the person N^o 21 of 16 should show that where the Grand Father's property is & that
the person N^o 21 of 16 did ~~not~~ ^{not} mortgage to him a half Vithy upon a written bond nominally - From the above it is satisfactorily proved that
the person N^o 21 of 16 has 1/2 Vithy in the Village & that he mortgaged it to the person N^o 16 of 16 - Hence half Vithy is registered in the name of the person
N^o 21 of 16 leaving half Vithy in possession of the person N^o 16 of 16 - The person N^o 17 of 16 is a divided Brother of the person N^o 16 - The person N^o 16
is responsible for the half Vithy of the person N^o 21 of 16, since he received it in mortgage as admitted by himself. The party (N^o 16) is referred
to find fault - - - - -

Valued in
 The results of my enquiry go to prove that half of the 40 Acres is fullwatered with the Well in a short time since they improved Tanks - Cattle -
 The Tanks are fullwatered annually in July - Now the Tanks are full - The laborers are first pleased that two Acres of Well - Cattle - Cattle -
 & then pleased that they are now fullwatered with the Dry crops & that they will fullwatered with the Well in a short time since they improved Tanks - Cattle -
 The results of my enquiry go to prove that half of the 40 Acres is fullwatered with the Well in a short time since they improved Tanks - Cattle -
 since the last 5 or 6 years In this District dry lands are sown with the Passes & the crops grow unimpaired in several places - Dry lands are fullwatered
 annually in July - Some are fullwatered as I shall find - Soil is of many & Low - or red - The soil is of a medium character generally -
 - 1/4 of the Wet Lands are fullwatered 2 or 3 times but not annually - Some times or 4 years the lands are not fullwatered 2 or 3 times - Some are sown with 3 or 4
 man Wells - There are 20 Wells in this Village - The Wells are dug once in 3 or 4 years - They are "Gorena" Wells equal to those in the Districts -
 The Village is in a flourishing state though the soil is not of a superior quality - Scarcely 1/2 of the water is fullwatered occasionally in this Village -
 No cotton is grown in this Village - In this Village, of the Wet & Dry lands, 2/5 is "Ponney" & 3/5 is "Rusi Kanachy" - The term "Ponney" is meant
 for the land that is fullwatered directly - Rusi Kanachy is the right of the fullwatered
 - 1/2 of the land that is fullwatered directly - Rusi Kanachy is the right of the fullwatered
