Average Value of grain of Meluram on wet land in Mangalam
Naharam consisting of Agri. Villages in the Taluq of the same name
for a period of 15 years

From 1950 to 1959	Cultivated area in Acre	Crop out tuns.	of which zamindar's share at 45 percent.	Average price of grain.	Value of grain grown in taluq per Acre.
1950-51	1000	100	450	100	100
1951-52	1000	100	450	100	100
1952-53	1000	100	450	100	100
1953-54	1000	100	450	100	100
1954-55	1000	100	450	100	100
1955-56	1000	100	450	100	100
1956-57	1000	100	450	100	100
1957-58	1000	100	450	100	100
1958-59	1000	100	450	100	100
1959-60	1000	100	450	100	100

Valuations

III. Wet lands depend upon two small Tanks. They are in repair. They are fed by
Temple Stream and the Tanks are filled annually. Security of Water is not felt generally.
Out of the Wet & Dry available lands 6 3/4 per cent are entered as waste respectively.
The Meluramans say that the Dry & Wet lands placed as waste are Mattukad. Poorly
cultivated lands are fallowes annually & some. Mangala & Pungala lands are not of a very
superior quality. The village is in good state. No garden lands in the village. The average
income of this village is 87 Rupees per annum. There is not true. The contiguous Agri. Villages
are Kalingady & Penbar. The average Wet annual of these villages comes to 7-4-6 Rupees per acre respectively.
The average Wet annual of these two villages comes to 6 1/2 Rupees per acre. The Meluramans say that the soil of this
village may be placed on par with that of the contiguous Agri. Villages. In consideration of the fertility, growth &c
I fix the valuation of the village as follows:-

Wet - 25 Acre fallowes at 6 1/2 Rupees per acre 162-8

Wet 6 1/4 Acre Mattukad at 2 Rupees per acre 12-8-0

Less 175-0-0

Dry 5 Acre Mattukad at 2 Rupees per acre 10-0-0

Total 177-8-0
