1148 Register No. 1148 Naluri 13079 —
This is one of the Villages in the former range of Serangunge. This was granted for the support of a Chattram in Narikudi; as appears from the Potta
- & from the Maratha Account of 1723. Sometime ago, a branch Chattram was established in the Village of Muttanandel. Under the name of the
- late Collector Mr Blackburne, the original Chattram is known by the name of Narikudi Chattram. This Chattram has several Village-houses.
- Regular "Mela Pasalai" for details. The Village of Naluri under settlement is in possession & enjoyment of the Narikudi Chattram up to this day.
- In the alleged Account of 1721, the Village is entered as begun. The Headman of the Chattram who appeared for the settlement under the name of the collector,
- pleads that the Village is not begun & that the entry in the Account of 1721 is not a correct one. He produced an authenticated copy of the Potta of the
- Village granted to them by the Judge Mr G. W. Lander... in 1782 on stamped paper. This Potta relates to this & to several other Villages. Copy of the
- Authenticated copy of the Potta is placed with this for the information of the Reviewing Officers. The said Potta is dated 1785. ~~The Potta~~ The presence of the
- This produced authentic copy of a Rajawanshi

they produced a bill of exchange on the bank of New York dated 24 December 1811 - filed in the Federal Court of Medure - by the bank (at all times) grand justice of the law in suit No 6120 of 1811 - which was

brought for the recovery of the Village for the
Village of Attitash (1/2) & the Village of (1/2)
which were assigned by the then Governor -
The Agreement was filed with drawing the
suit, as the Governor made over the Village
to the Juff who was then District Agent of the
Institution - (See record)

Institution - (Vice President)
 To be confirmed under Rule
 III of our Law - Confirmed in
 present terms.
 The same is
 confirmed in
 the same terms.

II. Again in the account of 7123-1248 & 1263, the Village is entered in the name of the Shuttrum - the Village is altogether omitted
 from the English Register of 1815, copy of which is forwarded to the Board of Revenue
 The Range's Valuer pleads that the benefits of the Grant Rules should not be extended to this Village, by reason that it is entered as
 a grant in the alleged account of 7121 - He has not any other materials to show that the value of the Village is included in the assets upon which
 the Permanent Settlement was based. I cannot but arrive at the conclusion that the Village is the one and of those deducted from the
 assets upon which the Pachmash was based, because it is proved by the Potta that this was granted prior to the Permanent Settlement
 - because the Rajeshwar shows that this & other Villages were once surveyed by the Jemadar & entered in
 - in 1811 - to the then Trustee of the same -
 - because this Village is in possession of the Shuttrum up to this day -
 - because the Village is entered in the name of this Institution in the Accounts of 1815 of the Register
 - & because the Account of 7121 is not genuine -

III. No talk now about the area or about the boundaries on the part of the Range's Valuer - now inserted
 correspond to those in the Account of 7126 - Hence the boundaries are confirmed & the 666 Acre & 88 parts situated therein are confirmed
 The Copy of the Village contains the boundaries of the Village & it is said that these boundaries were given in the Account of 7126 & are the same as the spot.

IV. The Copy of the Shuttrum in the branch Shuttrum is under the management of the collector since the last 30 years - as the Shak owns misappropriated the funds of
 the same - & introduced the Institution into considerable debts - See the Register of the Village of Melapadala for the details on this subject -

V. In the Potta which relates to this & other Villages, it is said, that the ancestors of the Shak sons of the Shuttrum to whom the Shuttrum was given
 granted for the maintenance of the Shuttrum are to carry them hereditarily from generation to generation with the authority of disposing of the same -

The early part of the Potta shows that the Villages inserted therein were granted for the support of the Shuttrum while the latter part of it shows that
 they are personal grants. The latter part is of no use - because the Villages are always held by in the name of the Shuttrum & the proceeds thereof
 are appropriated to the Shuttrum; & because the Decree in 1805 of the Judicial Court of Raminad which was brought
 instituted by one of the ancestors of the Shak sons for the recovery of Darnal & other right of the Institution from the Jemadar that Shak

- Shak sons are mere Managers - as like the Off - The Off also admitted in the proceedings of the suit that he is mere Manager - Hence these
 Villages fall within the scope of Rule III clause one - As desired by the collector, Her Majesty's Govt is ordered of 1816 as Trustee of the Institution -

VI. In an alleged account of recent alienations - Remitted
 forwarded to the Board of Revenue, this Village - 9-9-64
 which is now under settled is entered - This -
 is a matter of course as it was prepared from the imperfect materials furnished by the Jemadar - 9-9-64
 VII. The average income of this Village
 is 1357 Rupers annum as per annual
 settled Accounts & the value of the Melwa
 grain now collected can be 2500
 as per according to the present high prices
 9-9-64

[illegible]

To the Honorable the President of the Senate
 of the United States
 Washington, D. C.
 Sir,
 I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the subject of the petition of the citizens of the State of New York, for the removal of the remains of the late General George Washington, from the City of New York, to the City of Washington.

Handwritten signature or name inside a circle.

145

Handwritten text in a script, likely Tamil, covering the main body of the document. The text is written in a cursive style and spans multiple lines.

Handwritten text in a cursive script, likely a letter or document, written on aged, yellowed paper. The text is heavily obscured by a large, irregular tear in the upper left quadrant and a smaller tear in the center. The visible portions of the text are written in a fluid, cursive hand, characteristic of the 17th or 18th century. The paper shows signs of wear, including discoloration and small holes.

[Faint, mostly illegible handwritten text in a cursive script, likely a historical document or manuscript. The text is written on aged, yellowed paper and appears to be in a European language, possibly German or Dutch. The handwriting is dense and somewhat obscured by the texture of the paper and the fading of the ink.]
