[illegible]

of the produce of the same the purchase by the said Wholly of one and a half shares from 1852 and half a share from the father of 1853.

These shares are registered in the Madras General Sub-Office. These shares belong to the Wholly & Co. to the Mussulmans and they are enjoyed in the shares shown in the margin. It also appears that the Wholly enjoy certain shares belonging to the Mussulmans on right of mortgage. There is no dispute regarding the boundaries in the part of the Government land. The boundaries marked in the General Statement correspond to those in the Decree of 1854. They are confirmed and acres 5.15 and rent 105 are registered as the extent of the Village.

The Mangak land is part of our land which is now sold & said to be in good shape. It can hold 4 months supply and is capable of improvement. The soil is called Kengamud or red brown. As the land is waste 1/2 crop could be raised on any of the parts. In consideration of the nature of the soil of the Village and of the cultivation efforts for adjacent Anam Village I found the valuation as follows.

Net area 9.37 cultivated at 8 Rs per acre	Rs 75.00
Do. area 21.25 waste at 1 Rupee per acre	Rs 21.25
Grass area 15.70 cultivated at 1 Rupee per acre	Rs 15.70
