Nattandi Semlandi:

1) This is one of the 9 Maravanams in the zamindari of Sivaganga. This was granted by the Zamindar in Column 11 to the Brahmin of various families, through one Ramabhadra Ayyanga. This is a hereditary grant & is in uninterrupted possession of its holders since the date of the Grant. The Patta It was lost. The village is supported by all the accounts in Column 12. In the A Dobhashi account the village is stated as Nattandi. Now it is called Nattandi Semlandi. The name Semlandi is added to Nattandi as a hamlet was formed long ago subsequent to the permanent settlement under the Denomination of Semlandi within the limits of the village of Nattandi.

The lands of these village are contiguous to each other. As a private arrangement the mahajanams divided the lands of Nattandi into 8 large shares, and those of Semlandi into three small shares, and they are enjoyed as shewn in the margin. In the bill of sale, it is said, one half or as the case may be was sold in Nattandi Semlandi to Suval an individual but in detail the lands in the village is enjoyed as shewn in the margin. No takara about the among the Mahajanams. Poruppu is paid on the 8 wibis equally and permanently. No takara about the area nor about the boundaries on the part of the Zamindar's Vakil. The boundaries now insisted in the Vernacular register correspond to those in the account of Fasli 1246. Hence the area of 55 acres and 32 Cents is confirmed here.

The lands of "Nattandi" are undivided, and those of Semlandi are divided. The persons Nos 1, 2, 3, 4, 5, 10, 11, 12, 13, 14, 15, 16 and 18 in Column 16 purchased some of their lands in A.D. 1824, 1852, 1853, 1854 and 1855 for Rs. 1138-2-0. Five bills are on Stamp papers and one is on plain cadjan leaf

Valuation

Wet lands depend upon two tank of moderate size. They are in repair. They are fed by jungle stream etc the Mahajanam say that it area of wet and 10 acres of dry classed as waste are partly melkudi and partly waste fit to be cultivated. Wet lands are not subdivided second time. No variation in varied. Soil is of a superior quality, generally scarcity of water is not much felt. The contiguous Aryan village is Samanaty. This is a very important Aryan village. The average assessment of fifteen years of this Aryan village come to Rupees 7-9-8 per acre. The Mahajanams say that the Dharmasanam lands are not so fertile as those of the Aryan. Average dry assessment of the adjacent Aryan village is Rs 2-4-0 maximum, 0-10-9 minimum. Gingily oil seeds are charged at Rs. 2-4-0. Varaga etc. are charged with the minimum rate. No gingily oil seeds are grown in the Dharmasanam.

The average income of the village as per statement of the Mahajanam is Rupees 70/- per annum. In consideration of the fertility it will etc. I frame the valuation of the village as follows:—

Alienations of Land Revenue and of assessments and Grants thereof. Leases or Purchases.

Particulars regarding present Owner. If the Inam has been subdivided, the entries will of course require to be repeated in those columns.						REMARKS.
