Valuation.
 IV. Wet lands in this Village depend upon one Trunk - It is in repair, It affords by a single
 Stream. Wet lands are cultivated annually in full - The Dry lands there are very few acres
 - but fertile - Soil is of superior quality generally - The average income of the Village is
 - as per statement of the ¹⁸⁷⁰ ~~1870~~ ¹⁸⁷¹ ~~1871~~ persons of 1870 of old in the Paper, while it is
 - 36 Papers as per statement of the Village of the same year - The former is quite correct - This is the
 - way the Mahajans make produce false accounts - ~~Under~~ The country is very fertile
 - Vainapur - The average wet assessment of that Village calculated for a period ^{of 15 years} previous to 1870
 - comes to 10 2 per acre - ~~The~~ The average Dry assessment varies from 2-4 to 2-6 per acre
 - The highest wet Dry rate of assessment is charged for a few grainy acres of the which are
 - not grown in the Village - In considering the fertility of soil & the grain the
 - valuation of the Village as follows -

Wet to dry 6 1/2 Days 26-6-0
 Dry 16 Air full at wet 1-6-0 20-
 Dry 3 Air 67 fath Wet at 6 Air 0-15
