

Register No. 796

Remainder —
 Franca (Viapado)
 Waste — 40 + 28 = 68

1 This one of the Darnasnam in the zemunsangy Turyangai - This was granted by the zemunsar Terumala Petapaty in A.D. 1792 - as appears by the Tradition - From the English account of A.D. 1815, Copy of which is forwarded to the Board of Revenue it appears that this was granted to the Madan Rao - From the Maratta account of 1823 it appears that the Pundarams of 11 granted this Village to Ranga Rao & Mithana Rao of 13 - The Pundarams acquired it from the zemunsar. Thus there are inconsistencies in the Accounts - On the whole it is inferred that the zemunsar of 11 named Terumala Petapaty granted the Village to Pundarams, who transferred it to the persons of 13 - in A.D. 1792 - The Village is entered as Darnasnam in all the Accounts - No Talkara about the area or about the boundaries on the part of the Ranga Taluk. The boundaries now inserted in the vernacular statement correspond to those in the Account of 1823. Hence the areas 66 auns & 61 futs situated therein are registered here - The Village has, the Taluk of the Woon N. 1 of 16 says, no Patta - It appears from the English account of A.D. 1815 that the Village had a registered Patta - The Taluk of the Woon N. 1 of 16 says that the late Husband of the Woon & her Grand Father purchased the entire Village in A.D. 1792 for Rupees 84 from the Pundarams of 11 & that 3 Bills of sales which relate to the transaction were consumed by fire long ago - & that unauthenticated Copies of two bills of sales were with them - These documents are produced & they are of no use as they are unauthenticated Copies - The fact of the persons of 13 having purchased the Village in A.D. 1792 is proved by the entries in the English account of A.D. 1815 & of the Maratta account of 1823 - as their names are entered there -

II The Talukdar of the Taluk of 1861 pleads that the village is entirely waste since the last 30 years & that not even an inch was cultivated during that period. He says that the village is in a dilapidated state & that no Pongu was paid to the Government since the lands are left waste. He further says that not a single pie is derived from this village annually & that if a sum of 1000 Rupees is spent in repairing the tank & the lands may be brought under plough within the next 5 or 6 years. He also pleads that his client is intending to adopt measures to restore the tank & the village. The Talukdar of the Taluk of 1861 pleads that the village is entirely waste since the last 30 years & that not even an inch was cultivated during that period.  23-1861.

Since I wrote the above, the Talukdar of the Taluk of 1861 says that his client is willing to get the village enfranchised & that he will get at once the lands fallow. It is true that the lands are waste & that the Talukdar of 1861 will get them fallow soon. Since the village is enfranchised. R. A. K. K. S.
