Valuation

Wet Land as agreed upon on the Bank of moderate Rate - It is in general subject to the Inundation of the Pungwee River & Pungwee Cleave - & the Tide flows twice daily & the Water rises & falls 12 ft. Some Land as the Bank of the Cleave annually & the Malvern every 3d Tide & sometimes is subject to Inundation & Loss of the Hay annually & sometimes not at all - Value of a Common quality of Grass & Hay & Land in Malvern is raised - Value of a Common quality of Grass & Hay & Land in the Village Average owing to the Village as per Statement of the Allotments in the Village Average owing to the Village as per Statement of the Allotments - & 68 Rods per annum - & have no motive to substitute the average assessment - & 68 Rods per annum - The average assessment of the Allotments in the Village is estimated & given the marginal Est is high - In consideration of the Village is estimated & given the marginal Est is high - In consideration of the probability of evil &c., I prefer the valuation of the Village as follows

Wet 17 Acres at 6 Qrs per Acre - 102 -

Wet 1/4 Acres Water at 2 Qrs per Acre - 2 - 0

Total - 104 0 -
