Nalayan
soil.

Manuscript

1 This is one of the Villages in the perrimony of Pevongga. This was granted by Pundar Pongya Rajah for the support of the Temple of the Kala Haya. Some Pongyath, & Pongk a Hayaath & Kahaung Jorid. This is a permanent grant. No Patta. The Temple is apparently kept up. This Village is entered in all the Accounts in the name of the Temple. But it appears that this & another Village named Pannet Kala are tied by Pongyath otherwise called Gurakals, or Pannet Kals from time immemorial in satisfaction of the emoluments of their office. Hence the village is registered in the names of the actual holders thereof. These Gurakals & enjoy the village as shown in the margin. They have not any personal interest therein. They are merely to enjoy it as long as they are punctual in their official duties. In the perrimons Accounts, the revenue of these "Pannet Kals" villages are credited on one hand & debited on the other under the head of the wages of the worshippers of the Temple. The Rang's Patta has not any objection to confirm registering the village in the names of the actual holders thereof. The worshippers pay annually a sum of Rupees 65-5-3. to the Temple & not to the perrimons. This sum is appropriated to the use of the Temple. Hence this sum is not entered in the Patta as Pongyath or Pongk. The lower series now inserted in the vernacular & the lower series on the part of the Rang's Patta. The lower series now inserted in the vernacular & the lower series on the part of the Rang's Patta. The lower series now inserted in the vernacular & the lower series on the part of the Rang's Patta.

II No Talk arise about the Area and about the statement correspond to those in the Account of F. 246. Hence the boundaries are confirmed and the average income of the Village is 1000. The Temple is under the management of the Rameswaram. The fertility of soil is registered here. per annum. This is proved with reference to the fertility of soil. It is registered here.
