

Rates of Government Salage per Acre
 Dry 3-9-9 " 1-7
 Wet 10-13-3 " 5-9

Average rates of Government Salage

Dry 1-5-6
 Wet 4-6-1

Average Value of grain of Melworn on wet land in the Melworn
 Majanah consisting of Agri Villages in Salaisenkata Taluq for
 the period of 15 years - A

From Rs 56 to Rs 70	Cultivated area in acres	Gross out turn	Grain share at 45 per cent	Average prices of grain in Rs	Value of the quantity of grain given share	Ratio
748-4-4	5423-80	80444-8-4	25527-10-4	1-7-11	38291-2-5	4-11-1

II The lands in the Village are undivided - The village is irrigated equally by the Pongu
 Pongu is paid equally -

Valuation

III Wet lands in the Village depend upon our Tank - It is in repair - It is fed by a river named
 - Peter - The Tank is filled annually - The Mahajanams say that there is no excess water in the Wet area
 - above the entries in the Account of 7211 - that the tank breaches annually - from the influence of the
 - supplying channel - They claimed 10 Acre of Wet as fullwatered lands & 7 Acre of Wet as waste -
 - I say that the waste are of 20 years uncultivated lands fit to be fullwatered in future - The resulting
 - my enquiry show that the Mahajanams exaggerate the matter of waste - I cannot trust the
 - statement of the Mahajanams that there is no ^{excess} water in Wet lands - but they wrote a written remark
 - on their memorandum about ^{the matter of} registered that if it be proved by measurement that they concealed any
 - they will relinquish them to Govt - Since the Wet lands are cultivated annually 2 times -
 - Mahajanah ~~of~~ lands are of ^{the medium} ~~superior~~ quality generally - The average income of the Village is 15-
 - Rupees per annum as per statement of the Mahajanams - This is false below the Pongu of the Village -
 - by 6 Rupees & 11 As - This is quite false - The contiguous Agri Village is Mundanguri -
 - The average Wet account of the Village is 6-6-11 per acre - It is said that there are no dry lands
 - in the Village - fit to be fullwatered - I find no difference between the soil of the Village & that of the
 - contiguous Agri Village - In consideration of the fertility of soil & that of the valuation of the
 - village as follows -

Wet - 13 Acre fullwatered at 6 Rupees per acre 78-0-0

Wet 4 Acre of 6 feet Waste at 1 Rupee 4-0-0

Four Copies

J. P. Pongu and Rao

Note: I told the Mahajanams
 that they may enjoy the Village
 without the letting advantage
 of disposing the same - & that
 in this case the 2d will be charged -
 They admitted the fairness of the valuation
 & agreed to the Village being enfranchised
 on the 2d of Rupees 8 - J. P.
