Vatankur

III..... The houses in the village depend upon one large Tank - It is in repair - It is fed by one of the branch channels of Nizagar - The Tank is filled annually - Security of Salween^y is not felt generally - The Village is in glorious state - The soil is very superior quality as admitted by the Valah of the pany 16 Rupees - The Tank is very strong - Supplying channel is of much influence - The Valah cleared 29½ Rs of Wat as full water lands & 15½ Rs of Wat as waste - The State Lands are said to be of 20 years uncollected lands fit to be brought under plough - as soon as the big is impounded at a cost of 1000 Rupees - By improving ^{the tank} ~~the house~~ that this is such a valuable Village - as to leave no portion of its lands as waste - Most of the Wat lands are full water annually 2 times - Half of the Wat lands are said to be full water two 2 times or an average 16 Rupees full water in the Village - There is not any ground to find fault with the Village - Small extent of land cultivated with garden crops - (See next note)

Wells are also sunk in the
Most of the Well water is Kariseel &
The average ~~quantity~~^{yield}, is income of the
Village of Repuram of Rs 16. This is not true at all - The following is one of the Villages say that
the share of the landlord of the Village does not fall below 2000 Rallams of grain whatever may be
the nature of the season - The value of the Village quantity is 6000 Rupees at 2 Rupees per Rallam
at the present high price - The average prices of the last 15 years come to 1½ Rupee per Rallam
as is seen from the marginally noted statement - There is not any village contiguous to this
as as to share or part with it - in fertility of soil &c - The contiguous Ayer Village is
Rameswaram. The average Well assessment of that Village is 3 Rupees per acre - There are two Wells
named Leysand & Ramostangudi contiguous to this Village. The Taluk himself admits it
There are no more wells in the Polaput the well hereof is inferior to this -

The said Villages are one of the Villages in the P. Defunct the soil being as superior to the
The rate of Water assessment of [redacted] is very low compared
[redacted] of the Village [redacted] ability of soil &c, the [redacted]
