This is one of the Dharmasarams in the Taluk of Karur. This was granted by the Government to the Brahmins of various families of the name of Pappangolam.
 This is a hereditary grant. This is in unbroken possession of its holders since the date of the grant.
 This has a Potta on two plain pieces of land. This document was registered on the 4th April 1809 - under Regulation XXXI of 1802 as appears by a printed Ticket granted by the Registrar of the taluk.
 Killa of Pappangolam - No. 1 is about the area or about the boundaries on the part of the Range Taluk - The boundaries now inserted in the vernacular plot would correspond to those in the Account of Fr. 1244-1223-8 in the Potta. The boundaries in the Account of Fr. 1223 differ from those given in the Account of Fr. 1244 in the Potta - simply in the name of the village named Pappangolam.
 In the Account of Fr. 1223, it is said that this village is bounded by a village named Pappangolam.
 In the Potta in the Account of Fr. 1244 it is said that this village is bounded on the east by Pappangolam.
 There is no village named Pappangolam in the vicinity of the Dharmasaram. Hence the entries in the Account of Fr. 1244 in the Potta are correct & free from all errors - The boundaries inserted in the Account of Fr. 1244 in the Potta are confirmed & the 105 are situated within the said boundaries are confirmed.

The Range's Valuer argues that the Pungala lands may not be
 brought under the settlement though they are in possession of the Maharajans
 from time immemorial as they the full value being was included
 in the assets upon which the Permanent settlement was based. It is pointed out
 these lands were deducted from the assets upon which the Permanent
 settlement was based. As directed in the Comptroller's letter of 5 December 1868 - average assessment of the adjacent Ayay lands as the government never furnished me as yet with the
 the lands are conferred to the Maharajans after leaving the Range
 is rejected.

Pollachi

(Fair copy)

II - The per 100 of 16 purchased the land entered opposite to his name in 1854.
 - per 100 of 22-8 from the per 100 of 16. One Bill of sale is on Stamp Paper 1000.
 III - The per 100 of 5 of 16 purchased the land in 1855 for per 100 of 8-8 from the per 100 of 16.
 - 1037 1/2 of 16. Bill of sale is on stamp paper 1000.
 IV - The per 100 of 6 of 16 purchased the land in 1863 in December for per 100 of 200-4.
 - from one of the Maharajans who purchased the land previously in 1859 from one of the Maharajans, stand alone in the village. Two Bills are on Stamp Paper 1000.
 The above transactions proved to be bonafide enjoyment proved. Refers to 1-2-8 of 16.
 are descendants of the Original Grantee as this is a very old document and several generations passed, they are unable to describe the relation existing between themselves & the Original Grantee. The per 100 of 15 are descendants of the Original Grantee.

Valuation

Wet lands depend upon one tank of moderate size - It is in repair - It is fed by a
 - a single stream. The tank is filled annually. The Maharajans say that the wet lands
 - caused as water is of long unbroken lands & that they are just like the full lands
 - The area is small some extent. Some of the wet lands are cultivated annually & some - There is some
 - very small in extent. Wet lands are of a mixed character generally. Scarcity of water is not
 - much felt. Pungala lands also are of the same description. I have no materials to enter here the
 - average assessment of the adjacent Ayay lands as the government never furnished me as yet with the
 - detailed account. The average assessment of the Maharajans which the Village near Pollachi is situated
 - is given in the range register. It is somewhat high. Pungala rates in the adjacent Ayay
 - villages vary from 1-2 to 5-10 per acre. The average rates of the Village as part of the
 - per 100 is 40-8 per annum. This is not true. In consideration of the fertility of soil & the
 - I give the valuation of the Village as follows -

Wet 20 acres cultivated annually at 50 per acre - 1000
 Wet 6 1/4 acres waste at 10 per acre - 62 1/2
 Dry 16 acres at 10 per acre - 160

120-6-0
