Register of Palliyapel Village of Parayenkolam in the Taluq of Maruad [illegible] Madura District

Register No 132

Register No. 1132

- Parayenkolam -

This Palliyapel has only this one Village —

1 This is one of the Villages unto perwisang of Tevayanga - His was granted by one Viswa Natha Nayaken, one of the members of the family of the famous Tirumala Nayaken, for the maintenance of the Musjid of one Fakeerdin at Srupavaram, in Taluq of Venigipéndel, which is now [illegible] & which was originally built by the Institution - This Village has a Pottu on a copper plate in Telugu character dated AD 1561, - which contains the [illegible] - name of the grantor & grantee & the object of the grant - There is Persian Sakeed dated Hijri 1163 [illegible] Month of Saban, corresponding with AD - 1750 - This shows the Village under settled with some Alienations are in possession of the Mosque from time immemorial - The Raiyas Vakeel says that he is unable to say whether this Pottu & Sakeed are genuine or not & therefore [illegible] & argues that as the Village is entered as Aggrahara in the Account of Fasli 1211, the benefits of the [illegible] rules should not be granted to them - I must say for the sake of justice that the Pottu & the Sakeed are genuine, because none could create Telugu Pottus [illegible] of this description — in these days — this part of the country & because the present holding of this Village are very poor & unable to forge such deeds - Copying the Pottu & the Sakeed is placed with the [illegible] perusal of the Revenue Officers - This Village is not entered in an Account of alleged recent alienations forwarded to the Board of Revenue by the [illegible] in AD 1838 - Though several of the ancient alienations are inserted therein

II Nothing to show accounts that the Village is not found in any other Accounts than in that of 1246 in the name of Illanjid-

III As the Village is supported by two old documents, I brought it to the same on the Register, as I have reported already regard-
ing the treatment of the parallel cases - The alleged fate of the Inamdars of course ends with the Receiving of Precis —
The Inamdars plead that this is an ancient grant & that it is not entered in any of the Accounts from want of influence with the
Zemindar - No Proper this is free from all Tax - The Jodty of the Amount of Fr211 is as well known to all, I leave the matter under which here

III No Talk was about the boundaries of this Village on the part of the Ryot's Vakeel - The boundaries now inserted in the Perwanah
statement corresponds those in the Account of Fr246 - These boundaries differ from those in the Potta - The Inamdars say that these
boundaries are one & the same on the spot - These boundaries are confined here & the 157 Acres & 88 Cents situated therein are registered here

V - - - - The average income of this Village is 318 Rupees per annum this is not true - I raised 5600 Rupees —

VI The [illegible] is [illegible]
