Vattuvo Sorvavara Arivara Swami Trustee Stri Kattama nachyar Avergal Rany of the Sivaganga Zamindari 40						To be Confirmed under Rule III Clause one. Tax free Zamindars so di none. S d A Sudersana Rao 20.11.64 Deputy Collector	Confirmed on present tenures S. d. W. T. Blair (Offg) Inam Commr ~~8.6~~ 8.2.65 T. D. No. 1483

This Inam is situated in the heart of the Zemindaries of Periya Kannanur. It has its recognised boundaries the Ranys Vakeel thinking that there may be Excess above the area given in the account of F 1211 got the Inam measured and found decrease. He says that the measurements is not correct one. The mahazanams deducted from their account 21 acres of wet as the area of this Inam. Hence the same is Confirmed here as the area of this Inam.

6795 — 11 — 2	4507 — 09	51679 — 4 — —	22986 — 5 — 1	1 — 7 — 11	35301 — — 3	7 — 6 — 9

Dewastanam portion of the Mallal Mahanam is not allotted to the Devastanam portion in proportion to its original area - The Melvaramdars say that only 21 Acres of Wet are now granted to the Devastanam portion & that the Devastanam has no right to Samiyayen's lands in the Village - nor does the Temple any portion of the Manyam now charged on the Lands &c in the Village - No portion of Dry lands are in possession of the Temple - The Devastanam portion consists of 42 Cycul Kuttis Dry now engaged as shewn in the margin - The Lands were divided - & Rey are exchanged once in 13 years - These Melvaramdars hold the same shares in the Devastanam Village, & Nanamangalam Devastanam - The lands of these Villages are purchased in together under one & the same Bill of sale - But if, when a man purchases one Kutty in the Village, he must purchase one Kutty in Nanamangalam - All the bills of sales inserted in the Regulers of Nanamangalam are apply to both of these Villages - Thus Disputes raised & remarks written in the Regulers of Nanamangalam apply also to this Village - Hence I refer the Reviewing officers to my remarks in the Regulers of Nanamangalam (Vide next side)

Valuation.

II. Wet lands depend upon 2 Tanks of large size - They are in repair. They are fed by a Jungle Stream known by the name of "Palar" an influential stream. The Tanks are fed annually - Scarcity of Water is not felt for the lands that are cultivated annually - The ground formation of the Village is strong as it has two substantial Tanks & an ing channel - The Mahajanams stated 175 Acres of Wet out of 312½ Acres, as cultivated lands, & 137½ Acres of Wet as Waste - The Mahajanams pleaded that these 137½ Acres of Wet are left waste since the last 20 or 30 years from want of Water & yet to be brought in addition to the lands being impregnated with salt - If Tanks be repaired these 137½ Acres of Wet 70 Acres will be brought under plough within the next 10 years by improving Tanks & let the remaining 107½ Acres are quite unfit for cultivation for ever - They gave also a Written Kayfeyet to that effect - Again they said that all the Waste lands of 137½ are fit to be cultivated within the next 10 years or 8 years & that they will bring them under plough within that period. This they said when I told them that I will assume the Village - As the Mahajanams without paying any attention to my warnings are producing false account concealing some of the lands & as the Ryots Vakeel supports the statements of the Mahajanams without letting the pains of ascertaining the real extent & state of the Villages in which they are certain endowments of the Temples, Chattrums &c which are under the management of the Ryots, I got the entire Village measured - Comparison between the entries in the account produced by the Mahajanams & the results of my measurement, the particulars of which is admitted by the Mahajanams, is given below -

	As per account of the Mahajanams	As per measurement account
	Acres Cents	Acres Cents

The Mahwy-arasu admits the correctness of the measurement - I cannot say that the measurement account is quite correct - However it brought an increase in the Wet & Dry cultivation to the extent of 970 Acres 69 Cents & 40 Acres 67 Cents respectively - making a total of 111 Acres 27 Cents -

The Mahwy-arasu says that the Wet & Dry lands classed as waste are of long uncultivated lands & that they are fit to be cultivated within the next 10 or 15 years - Some of the Wet lands are cultivated annually 2d time - 1/5 or 1/6 of the Wet-area is said to be cultivated annually on an average - 2d time - Garden crops are raised in one or two Acres - Nanjah & Punjah lands are of a superior quality generally - The average income of the Dasawaram portion - is 1750 Rupees per annum - Of course this is not true - The Mahwy-arasu never - increased their income after 111 Acres of cultivated lands are brought to light by the measurement - The contiguous Ayen Villages are Trumbur & Kallikudy Pillatta Vooty, Mangudy & Vellangudy - The average Wet assessment of these Villages varies from 5 - 6 4 to 6 1/2 Rupees per acre - This average is calculated for a period of 15 years previous to 1270 - The average Dry assessment of the Ayen Villages varies from 0 - 3 to 0 - 13 6 per acre - The Mahwy-arasu says that the soil of this Village may be classed on par with that of the adjacent Ayen Villages - The Village is in good state - It is said that no portion of Dry lands is fit to be converted into Wet - In consideration of the fertility of soil & Grance the valuation of the Village as follows -

Wet 250 Acres cultivated at 7 Rupees per acre	1750	- -
Wet 83 Acres 35 Cents & 35 Cents & 35 Cents of long waste fit to be cultivated with 10 years at 1 Rupee per acre	83	- -
Total -	1833	- 0
Dry 100 Acres cultivated at 13 1/2 A. per acre	84	- 0 -
Dry 210 1/2 Acres of long waste at 1/4 Rupee per	52	10 -
	137	- 0 - 0
	1970	- 6 - 0
Devastanam 21 Acres of Wet at 7 Rupees per acre	147	- 0 -
	2117	- 6 - 0

III The Devastanam lands are distinct from the Dharmasanam lands. They have their own boundaries. They do not form a portion of the Villages in the adjoining Fasli. These lands measure 71 Acres as stated by the Ranyo's Vakeel &c.

IV The Pooruja of this, & another Village named Narainamongalem. is paid in lump as entered in the Peishcush account. Now as these Villages are brought on separate Registers, the Pooruja is split. with reference to the entries in the English Account of A.D 1875.
