II - ... Wet lands depend upon over bank of moderate size. It is in repair. It is fed by a single stream. The tank is filled annually. Permits of water is not felt generally. Wet lands are cultivated annually in full. The Dry lands of 16 3/4 Acres. of cleared as waste are of 10 or 15 years ~~in~~ uncultivated ~~land~~ ~~area~~. Some of the wet lands are cultivated annually in full. Mangala & Pringa are of a superior quality generally. The Village is in good state. No tax is raised in this Village. The contiguous Agaw Village is Parakolam. The average ~~in~~ wet assessment of this Village calculated for a period of 15 years comes to 6.5 Rs per acre. The average Dry assessment ~~comes~~ varies from 0.133 to 0.93 per acre. The average income of the Village as per statement of the Melmaran is 61 Rupees per annum. This is correct. In consideration of the fertility of soil & I frame the valuation of the Village as follows -

30 Acres of Wet cultivated annually over & partly 2nd time at 6 Rupees per acre. 180
 8 Acres of Wet of an inferior quality at 2 Rupees per acre. 16
 10 Acres of Dry cultivated at 1/2 Rupees per acre. 5
 10 Acres of Dry. Waste at 1/2 Rs per acre. 5
