Rates of Government Taluqs per Acre
 Mar 1899
 Dry 3-9-9
 Wet 10-10-0
 Average Rates of Government Taluqs per Acre
 Dry 1-8-6
 Wet 4-6-1

Average Value of grain of Meluarum on wet land in Gylayangudi
 Maharam consisting of Agam Villages in the Taluq of Gammesowaram
 for a period of 15 years

From Rs 1250 to Rs 100	Cultivated area	Crop out turn	Of which zamindars share at 45 per cent	Average prices of grain	Value of grain per tetra of grain given in 1844	Rates per Acre
Rs 1250	59	47393	4-2	20123	1-1-9	6-5-3

II. In the Account of 1824 the area of two & another Village called Naguragudi -
 mentioned in Camp. In the account of 1803, the area of these two villages is given
 separately. Porup of papers 57-24 is paid in Camp for the two villages
 called Naguragudi - as the holders of them are one & the same person - Now as the villages
 are brought on separate registers, Porup is apportioned on the Ogl Area of the same.
 No Tak was about the area or about the boundaries on the part of the Range Officer -
 The boundaries correspond to those in the Account of 1844. Hence the 135 Ares & 28-
 Guntas situated within the said boundaries are assigned here - The Village consists of 16 equal -
 Vithas. They are enjoyed, as shown in the margin of the preceding side - No lands are divided -
 Porup is paid on the number of Vithas equally & permanently - The holdings are not
 liable to periodical exchange

III. The persons of 1527 of 16 are descendants of the Ogl Grantee - The person of 28
 is an alien - The person of 28 of 16 purchased his lands in 1862 for paper 548
 from the person of 16 of 16. One Bill of sale is on a stamped paper. Transaction proved by
 homages & enjoyment proved -
 (The person of 16)

Valankai

The Well Cms depend upon one Tank. It is in repair. It is fed by -
 one of the branch / channels of "Mettur Tal". The Tank is fed annually -
 The bottom of the Village cleared 25 Ann of W. 67 Ann of Dry as full water
 lands 76 Ann of W. 431 Ann of Dry as waste. They say that these waste lands
 are of 10 & 15 years standing. Some of the Wet lands are full water and only -
 2nd time. The grain crops are raised - Kari & Chirika lands are most of a
 very superior quality generally. The Village is in pretty good state - The contiguous
 Agrar Villages are Aringudi perum & Pirapalai. The average Wet assessment of
 these Villages calculated for a period of 15 years previous to 1770 comes to -
 6-14-7-6-29 per acre respectively. The average Dry Assessment varies from -
 0-15-9-5-1-15-8 per acre - full water is charged with the highest rate, which the Villagers say -
 are not grown in the Village. Average income of the Village is 978. The soil of the Village -
 may the Villagers say, be placed with that of the Agrar Villages & in consideration of the fertility of soil &c
 I frame the valuation of the Village as follows -

26 Muttana } Li - (26)
 muste 50 } 1 wife
 1 muste }
 27 Pinimuttu } Li - (27)
 na muste } 3 elder
 12 } brothers
 28 Periyakurup } Al. (28)
 pa Pandaram } 1 mother
 20 } 1 father
 1 wife
 1 younger
 1 brother

These preceding are -
 1770

Wet 26 Ann full water annually once & partly 2 nd time at 10 Rupees per acre	156	
Wet 6 Ann Waste at 10 Rupees per acre	6	
Dry 50 Ann full water at 10 Rupees per acre	50	162
Dry 28 1/2 Ann Waste at 10 Rupees per acre	72	572
