The holders of the Village say that there is not any income for the present or during the last 10 years. The Contiguous Ayas Villages are, Tachanumel & Kilapasevur - The average Rd assessment of the contiguous Ayas Villages calculated for a period of 15 years previous to 1870 comes to Rs 72 per acre. Nayaka soil of a medium character generally - The holders of the Village say that if the Tank is restored, some of the Wet lands may also be cultivated 2 times - As the lands will be brought under plough in the ensuing year, & as the outlay that may be made on requiring the Tank will be covered in the income from the Village in one year, I charge Rs 4 1/2 per acre - The Villagers are paying Bhuppa fund cash to the Zamindar.

Wet  $9\frac{3}{4}$  in 10 years ~~into~~ waste that may be brought under  
plough in the ensuing year at 4 R per acre } 39
