II No Talk was about the Area or about the boundaries on the part of the Rajah's Vakeel. The boundaries now inserted in the memorandum stated correspond to those in the Penu Sai Devastanam Settlement Account of 1869. Hence the boundaries are confirmed here & the 236 Annas situated thereon are registered as divided. The Devastanam portion is Parva Grama or free from all Tax -

III. The Divert man & Darnissanah portions of the Village are ~~an~~ undivided. The land around
 IV. The Darnissanah portion consists of 32 appah Bongoss. The lands are undivided. Pongp is paid on the number of ^{grasses} ~~grasses~~ equally & permanently
 (Vide next side)

XV. The Darnissanau portion consists of 32 appal Pongoss. The towns

Two preceding sets *MS.*

The village is omitted from the English account of A.D. 1875 - The Village was 6 Hamlets viz. Andyskolen, Salangolen, Palsky, Totar, & Votlath -
The persons N° 11 & 12 of 06 are descended from the Engl. Grants - & others are those of the partners of the Engl. Grants. The persons N° 11 & 12 of 06 say that they are entitled to the land
- acquired half of the Village in gift from the Grants - In proof of which the names of the ancestors of the persons N° 11 & 12 of 06 are entered in the Account of 1823 -
- The persons N° 11 & 12 of 06 produced receipts from A.D. 1797 to 1804 - & from 1838 to 1852 - These receipts are of no value as they were given by the Grants - it is said however that the Malaguanians paid the Ponqu - The names of the Malaguanians are not given therein - On the whole as the entries in the Account of 1823 show that ~~the~~ a portion of the Village or entire Village is in possession of the family of the persons N° 11 & 12 of 06 since long & as the persons N° 11 & 12 of 06 admit that the right of the persons N° 11 & 12 of 06 - to the shares entered is officiale to their names Hence the right of all the persons of 06 is established -
Valuation of the Dummeram portion of half Village.
The Tomb is filled annually. Scarce of water is not felt generally -

offshore to their names & hence the name of the village.

Valuation of the Dummerham portion of half village.

II. Wet lands depend upon 5 Tanks of moderate size. One of them is in repair & others are in disuse. The Tank is filled annually. Fear of water is not felt generally. The four Tanks are left in disuse as the fifth which is a large Tank - is sufficient to irrigate all Wet lands. The Mahajanams say that 21 Annas are paid for the use of the Tank. - & 72 Annas of Dry are cultivated annually & the rest as elsewhere. This is not true to its full extent as appears from the resulting very good crops. Some of the Wet lands - are cultivated annually 2 times. Mangro & Pongro lands are not of a very inferior quality generally - No grain crops are raised. The average income of the village as per statement of the Mahajanams is 146 Rs per anna. The Tank of the Trustees says that the average of the Dewas is a small portion of the half village also comes to the Trustees. This is not true. The Dewas are not paid to produce the accounts from which the average income is taken. There are no other sources of income. The village is contiguous to the village named Paliwark at a distance of 3 miles from the village. The average assessment of the village is as follows -

Wet - 30 Annas cultivated at 6 Rs per anna	180
Wet 4 1/2 Annas at 10 Rs per anna	45
Dry - 72 Annas at 10 Rs per anna	72
	297
