Register no. 633

Sheet No. 822

1 This is one of the Damasanams in the pendency of Paraganga. It is not known to whom & when it was granted - as ~~the~~ the name of the ^{old} ~~Grant~~ ^{is given in} any of the Accounts furnished from the Collector's Office - and as the Village has no ~~Letter~~ - This Village is however entered ~~as~~ as Damasanam in all the Accounts - In the Account of 17223 & of 171315 (17224) it is said that the Village was then in possession of one Thang Narayana - On the whole this is a Village that was deducted from the assets upon which the Permanent Settlement was based. No Talk can be about the Area or about the Boundaries on the part of the Rang's Pakkel - The boundaries now inserted in the revenue statement correspond to those in the Account of 17246 - Hence 48 acres & 2 Guntas situated within the proper limits of the Village are confirmed here - The crop is estimated within the proper limits of the Village - The Village consists of 8 equal Thattas. They are enjoyed as shown in the margin - The lands are undivided - Pongu is paid on the number of Thattas equally & permanently - - The persons N^o 1-2 & 3 of 176 pleased that they are descendants of the Old Grantee & that they are related to the person of 175 - But they failed to describe their relationship with the person of 175 though I gave them ample opportunity for preparing two Genealogical Trees - They insisted before me that ~~neither~~ ^{neither} of these genealogical trees is a correct one. It is however proved that these persons N^o 1-2 & 3 of 176 - are standing shareholders in this Village & that the half of the Village is in ~~their~~ possession of their family since long - (This must be)

70-64

Remainder 37-94.

29.

Average value of grain of Melworm on wet land in Panangudi
Magasam consisting of Ayer Villages in Ayer Vallokkai Taluk
for the period of 15 years.

From 1856 to 1870.	Cultivated area in acres	Gross sown	Grain Land here at 45 per Cent.	Average prices of grains.	Value of the quantity of grains sown in 1861.	Rates per acre.
R 1856	A B	R 1856	R 1856	R 1856	R 1856	R 1856
5440-12-2.	3308-82.	51390-0-1.	24162-4-1.	1-5-70.	34416-5-7.	9-11-7.

II The adopted father of the person No 6 of 1816 purchased the remaining half of the Village in A.D 1831 - for Papers 910 - from one Rallatten Eyan & that bill of sale is on the record of the Civil Court. In proof of this he produced an authenticated Copy of a Decree on suit No 4 of 1856 on the file of the Civil Court of Madras - From this it appears that half of the Village entered opposite to the person No 6 of 1816 & some other lands in other Villages were attached in A.D 1856 by Mr Parker, Agent of the Court of Madras, under whose management the Estate was then placed from the minority of the then zemindar Boda Gooroo Tinai, successor of the Pottannam zemindar, on the ground that this half Village is was Rallatten property or purchased property of the zemindar; that in A.D 1856 the ^{late} ~~adopted~~ father of the person No 6 of 1816 for the person No 6 of 1816 sued the agent of the Court of Madras for the recovery of this half Village & other requested lands & that the Court decided the matter & ascertained that the lands claimed by the Pff, do belong to the Plaintiff as his adopted father purchased them lawfully. & awarded ^{to the Pff} the person No 6 of 1816 ^{the} half Village & other lands for the recovery of which the suit was instituted & with a considerable sum of Rupees 10693-11 g. being the net revenues from July 248 to 1253 & from July 1254 to 1265 of the said landed property - The half Village & other lands are in possession of the person No 6 of 1816. In the state of things, the Rangis Valleeel ~~of~~ pleads to register this 2d half Village entered opposite to the person No 6 of 1816 in the name of the Rangis Rallatten Vachigam ^{on the} ~~that~~ that it was Rallatten property & that it was disposed of by the zemindar who ^{was} ~~possessed~~ to be in unlawful owner of the zemindari of Sivaganga, by a recent decision of the Privy Council - his request ^{that} cannot be complied with by the officers of the Department, he is referred to the Court on behalf of his Plaintiff.

III. Well cannot depend upon one Tank of moderate size. It is in repair. It is fed by two Jungle Streams - also by the Waste Water of the Tanks of the contiguous Agre Villages. The Tank is filled annually. Scarcity of Water is not felt generally. Wet & Dry lands are fully watered annually in full. Some of the best lands are fully watered annually 2^d time. $\frac{1}{3}$ of the Wet area is used but fully watered 2^d time on an average. Mangab & Pungab lands are of a superior quality generally. They are of red clay description. The Village is in flourishing state. The average income of the Village as per statement of the headmen of the Village is 110 Rupees per annum. This is not true. The contiguous Agre Village is Panangur. The average Wet amount of the Village calculated for a period of 15 years previous to 17270 comes to 10-3-4 per acre. The average Dry amount of the contiguous Agre Village varies from 1-11 to 1-2 per acre. The headmen of the Village say that the soil of the Village may be placed on par with that of the contiguous Agre Village & that the average Wet amount of the contiguous Agre Village is not high. I think so. In consideration of the fertility of soil & of the valuation of the Village as follows - Wet 33 Seers at 8 Rupees an acre - This is I think a fair rate - 264
 Dry 2 $\frac{1}{2}$ Seers at 6 Rupees an acre - 154
 Grand 2 $\frac{1}{2}$ Seers at 3 Rupees an acre - 77
 Dry 2 $\frac{1}{2}$ Seers at 6 Rupees an acre - 154
 Grand 21-5-4
