(V) Persons of 1-2-3-6-7-8-9-13-14-15-16-17-18-19-20-21-22-23-24-25-
 26-35-36-38-45 of 16 are enjoying 10 & odd Thulas out of 42 in the village, without documents -
 The Mahajanams say that they acquired them partly by purchase & partly by gift & that
 the documents were lost. Enjoyment proved.
 VI The father of the person of 13 & 14 of 16 acquired 5 3/4 Thulas from his mother's father about
 60 or 70 years ago - of these 1 & 15/16 Thulas were sold & the rest are in possession of the person of
 of 13 & 14 of 16 -
 VII The 'Kannad' Account of this village prepared in the year Pramasicha corresponding
 with A.D. 1793 contains the names of the creators of the persons who are enjoying shares now -
 in this village without documents -
 VIII The person of 2 of 16 claims to 3/32 part of a Thuly from the person of 1 of 16 -
 by reason that this is his patrimony & that this was assigned by the person of 1 of 16 -
 The person of 1 of 16 produced two Duple of papers. All of these were examined -
 but none of them relate to the dispute in question - The person of 2 of 16 is the son of father -
 Ender Brother of the person of 1 of 16. The results of my enquiry & the documents produced
 by the person of 1 & 2 of 16 show that originally the family had in this village -

- 22 Nagayyan } Leo - (22) 1 wife
- 23 Kristnayyan } Leo - (23) 1 wife 1 son 4 daughters
- 24 Govani Sany } Leo - (24) 1 wife 1 son

- 26 Lakshmin } Leo - (26) 1 daughter 1 son
- 27 Tirumala } Leo - (27) 1 wife 1 son 1 daughter 1 grand son
- 28 Rangayyan } Leo - (28) 1 wife
- 29 Rangayyan } Leo - (29) 1 wife
- 30 Kidantama } Leo - (30) 1 wife 1 daughter 1 son
- 31 Kuppamanna } Leo - (31) 2 daughters 1 son
- 32 Tiruvengada } Leo - (32) 1 wife 1 adopted son 1 daughter 1 grand son
- 33 Gopalayyan } Leo - (33) 1 wife 3 sons
- 34 Varadaraja } Leo - (34) 1 wife 2 sons 1 daughter

Vide preceding side

These Pongoroos were divided in A.D. 1831 equally between the persons marked A, B, C & D -
 at 1/16 of a Thuly each. The claimant or person E is enjoying now the share of B, his natural
 father's share of A, his adopted father - which amounts to 1-10/16 Thulas - (Vide next sheet) Kadanturuthi

Valentine

Some of the water lands are cultivated ^{annually} & some - 15/16
2nd ^{have} been cultivated with grain crops - No wells in the north

ge- (Full round side)
sheet-

the preceding side.

Nanjah & Panjab lands are of a superior quality generally. The soil contains sugar, Veffel, Potatoes & ingredients - No Dry lands are fit to be converted into tobacco in future. Some of the Dry lands classed as waste, the Mahajannams say, are full water with "Kolongoreval" or rough paddy under the providential source of irrigation & from the most moisture of the tank in the bed of which these lands are situated - The average income of this Village as per statement of the Mahajannams is 328 Rupees per annum - This is not true as usual - The contiguous Ryzen Villages are Yelajangney, Teruvadu & Arunagayam - The average Wet assessment of these villages is 653, 815 & 7156 respectively - The average of these 3 rates comes to 7 Rupees per acre - The average is calculated for a period of 15 years intervening 1756 & 1770 - Dry rates vary from 0188 to 198 per acre - The highest rate is charged for Cotton which is not grown in this Village. Pulse is charged as in the other villages with at 12-6 per acre - This is grown in the Village - This Village consists some of the saline lands - The Mahajannams say that the soil of this Village may be classed on par with that of the Village of Arunagayam - The average Wet assessment of which is 7156 per acre - In consideration of the fertility of soil & the proximity to the other villages - The average Wet assessment of the 3 contiguous Ryzen Villages - valuation of this Village as follows - I think it is fair to charge the wet full water lands with the average Wet assessment of the 3 contiguous Ryzen Villages - & adopt the same course here -

Wet 95 Acres - full water at 7 Rupees per acre - 665 - 00
 Wet 13 Acres & 67 Guntas - full water at 1 Rupee per acre - 13 - 42
 ----- } 678 - 12

Dry 80 Acres - full water at 1-2 per acre - 90 - 00
 Dry 35 Acres & 89 Guntas - full water at 1/4 per acre - 9 - 00
 ----- } 99 - 00
