

I Payamane jinsal
II Pettijinsal -
III Raosani jinsal.
IV Lingankudi

I This is one of the Villages in the Jemin sar of Perazgarai. This was granted for the support of the Temple of Sri Rattana at Sri Amman in Peravayal & together Talayar. This is a permanent grant. No Polls. The Temple is efficiently kept up. This Village is entered in all the Accounts in the name of the Temple.

This Temple has 3 other Villages besides these. The names of which are given in the margin - There is another Village named Handipalay Peruvol in possession of the Temple, which is not found in any of the existing Accounts. Hence the benefits of the Income Rules are not extended to it.

II This Temple is under the management of the Rang Rattana Nachiyar - as it was in under the management of her predecessors -

III No Polls are about the Area or about the town series on the part of the Rang's Vakkal. The town series now inserted in the revenue statement correspond to the recognized limits of the village. Hence the town series are confirmed here & the 27 Acres & 21 cents situated therein are registered here.

It appears that in 1862, one Jagannatha Nayakam complained to the Revenue Officer of the cert. area Ayer's lands having been encroached upon & added to the village of this Temple by a Petty who manages the affairs of the Institution under the orders of the Jemin sar & that a Gurnamastah was deputed to the spot & an enquiry was held but the allegations of the complainant were not proved - I also enquired the inhabitants & of the contiguous Ayer's Villages. They deposed that ~~no~~ no portion of the contiguous Ayer's lands has been encroached upon & added to the village of the Temple - But it is proved that the Jamin of these Villages (those mentioned)

- Connected forged and was an account purporting to be the boundary account of these villages, prepared in the year 1814 - The firmness
the account containing the boundaries of these villages which was produced to the present Government, who in consultation are enquiring about the boundaries of these villages
in 1812, is a copy of the original account. They are unable to say where the original account could be found. The Government named this account as the one prepared in 1814
1814 with an apprehension whether the recognized limits of these villages will be confirmed or not. In this alleged account of 1814, the village of Mandrupur
which is not found in any account in the name of the Temple is mixed with Pettigumal & A. among which are entered in all the accounts in the name of the
Temple. Now as the Rangji Valceel raises justly objection to confirm registering here the village of Mandrupur General which is not found in any of these
accounts in the name of the Temple; a separable account is prepared showing the recognized boundaries of the villages that are entered in all accounts in the
name of the Temple & the said recognized boundaries are confirmed here. The Rangji Valceel has not any objection to confirming these recognized boundaries.

IV The average income of the Village is 50 Rupees per annum - The boundaries of the Village were not recorded in any of the accounts previous to this.

Revenue
1370 84.

Prothonotary No. 2

Porcup of Rupees 12 to 2 is paid in lump for the 4 & 3 other
villages belonging to this Temple, which are given in the
margin of the preceding side.
