This is one of the Panchams in the jurisdiction of Sivaganga. It is not known from the public accounts by whom, when & to whom & for what purpose the Village was bestowed. The persons in 1600 say that this was granted to one of their ancestors. From an account of the pancham of A.D. 1850 which was furnished to the collector, it appears that this Village was granted to one Raghunatha Nayan, being a poet & a Suggler unprofessionally. The entry in the said account of A.D. 1850 is correct one as admitted by the present holders of the Village & by the tradition. No Potta is forthcoming for this Village. Panchams in the jurisdiction are not found generally in other accounts than that of 1721. No Talkam about the Area or about the boundaries on the part of the Range Pancham. The boundaries now inserted in the memorandum statement correspond to those in the account of 1724.

Handwritten signature/initials.

Since the boundaries are confirmed here & the 85 Acre & 96 Guntas situated therein are registered here. The Village consists of 8 1/4 Thuties. They are enjoyed as shown in the margin. The lands were divided permanently. They are not liable to periodical exchange. Pancham is paid on the revenue of Thuties equally & permanently. The persons 1 to 26 of 16 say that they are descendants of the Original Grantee & that they are unable to describe their relationship with the Original Grantee as several generations passed between him & them & as this is an ancient grant of about 20 years or more (see next page).

(Fair copy)

III. The mother of the boy N 25 is the daughter of the same person. The Widow N 24 & 16 is the
step-mother of the boy N 25 & 16. The mother of the boy N 25 & 16 places the name of the Widow N 24.
N 18 may not be registered here. Her husband died a few years ago. The deceased was an old man.
The mother. She is living with the Widow N 24 & 16. The family is an undivided one. The Widow.
N 24 & 16 has no other place. Part of the name of the Widow N 24 is not registered. The mother of the boy N 25 will not support them. Hence the father, while his father is registered.
The mother of the boy N 25 & 16 is not registered. The mother of the boy N 25 will not support them. Hence the father, while his father is registered.

III The person N23 of 186 claims to 5/6 of activity from the person N29 of 180 of 186 by reason that they married it about 7 or 8 years ago. It is proved that the person N29 of 186 who is the younger brother of the person N30 purchased the land in AD 1842 for Rs 28 from the widow of the Elder Brother of the person N23 of 186. & he is enjoying it ever since. Hence the claim is rejected & the party is referred to the civil court. The person N23 of 186 produced the bill of sale executed to the person N29 by the Elder Brother of the person N23 of 186, who died about 60 years ago. This is a plain forgery. The proved the genuine one by the village.

Valuation

III This is one of the Divisions in the panchayat of Pungangai. The whole lands in the Village depend upon one Tank of considerable size. The bed of the Tank belongs to the contiguous Agri Village of "Mela Parathiyar". Hence the bed of the Tank is registered in here as 8 Ann 140 Panta. These lands are in reality occupied by the Tank bed & are in repair. It is fed by a Temple Stream & by the Waste Water of the Tanks & the fields of the "Mela Parathiyar". The fields of Mela Parathiyar are situated in the bed of the Tank of this Village. The Tank of the Agri Village of Mela Parathiyar is fed by Krammelan river. In reality it feeds the both Tanks. The Tank of this Village is fed annually. Scarcity of water is not felt generally. The Mahajans say that 5 to Ann of Wet & 6 Ann of Dry are full watered annually in full & that 6 3/4 Ann of Wet & 2 1/2 Ann of Dry are fit to be full watered. If the holders of this Village were to be so bound as not to conceal any of the lands in this Village, the waste is being large. The holders of this Village assume that they never concealed any of the lands. I advised them as much as possible not to conceal any lands. Some of the whole lands are full watered annually 2 times. No Tax is raised in this Village. This Village is in flourishing state. The average income of this Village is 258 Rupees per annum as per statement of the Village. Mangala & Pungala lands are of a superior quality generally. The soil is black in colour. The contiguous Agri Village is Mela Parathiyar & Raminjung. The average wet assessment of these Villages, calculated for a period of 15 years previous to 1920 comes to 7-9-4-75-107 per acre - respectively. The gross average of these two Villages comes 6 Rupees 40 Ann per acre. The average dry annual of these Agri Villages may prove 0-13-8-5-2- per acre. The holders of this Village say that the soil of this Village may be of standard fertility with that of the contiguous Agri Village. In consideration of the fertility of soil & as I frame the valuation of this Village as follows:-

Full water - Wet 5 to Ann at 6 1/2 per acre	357
Waste - Wet 6 3/4 Ann at 5 per acre	138
at 2 Ann per acre	364-8-0
Dry 6 Ann - full watered at 1-2- per acre	672
Dry 2 1/2 Ann Waste fit to be full watered at 1/2	14
Rupees per acre	8-0-0
Total	372-8-0
