I. This is one of the Darnassan villages of Tallovery in Varapuzha Taluk of Seenganga Zamin in the Kara District. This was granted by Devadattam of Jellakabalan Raja to the Brahmins of various families in the Kara District. Through one Alayattayan of 113 - This is a hereditary grant. This is an uninterrupted possession of its lands since the date of the grant. The lands are Patta. It was lost. The Village is supported by all the accounts of 112 - 116 Tallovery about the area or about the boundaries on the part of the Patta's Tallovery. The boundaries correspond to those in the account of 1246 - Hence the area of 192 Ams & 50 Pals is confirmed true. The excess is really a marked over but it is situated within the proper limits of the Village. The excess is attributable to the defects in the old accounts - & not to any encroachments upon Govt lands. The Village consists of 12 equal parts of an equal balance. They are enjoyed as common in the village. The lands are divided. Patta is paid on the remaining Patta equally & permanently. The shares are not liable to exchange.

II. The persons of 116 are descendants of the 1st Grantee. The person of 116 purchased his lands in 1853 for Rs 122 & 50 pence. The person of 116 Bill of sales on a stamped paper leaf. The seller admitted having executed the Bill of sales to the person of 116. & the Government in possession of the latter. He pleads that the purchaser owes him some money, while the purchaser pleads that he did not.

For the entire sum. Hence the claim is rejected. The party is referred to civil court. (Vide next case)

The person #24 of 1861 was a person. One Ramaswamy Senguzar, the father of the person #24 of 1861, died without issue 35 years ago leaving a widow, who died 12 years ago. His son as she died, the person #24 of 1861 mortgaged the land. The son died and now the person #24 of 1861 pleads that the entire property should fall in his possession as he performed the funeral rites of the deceased father's younger widow. I went to a Panchayat. who decided that the property should go to the person #24 of 1861 & the person #24 of 1861. The person #24 of 1861 agreed to abide by the decision & executed an agreement to the person #24 of 1861 on a stamped paper to that effect. The person #24 of 1861 is enjoying now 1/16 of a property & the person #24 of 1861 is enjoying 15/16 of a property. Hence the dispute ended. This is a divided family.

Valuation

III Wet lands depend upon one tank of large size. It is in open. It is fed by a jungled stream. It is fed by the waste water of the adjacent Dammaram Village of Kandaswar. The tank is filled annually. Scarcity of water is not felt generally. The Melworn are any that 20 Acre of Wet & 100 Acre of Dry are full watered annually. That 1/2 Acre of Dry & 25 Acre of Dry. Placed as waste are of long uncultivated lands but are full watered yearly. Some of the Wet lands are full watered annually 20 times. Soil is of a superior quality generally. It is a very description. The average income of the Village as for the land of the Melworn is 96 Papes per acre. This is not true. There are Ayen Villages contiguous to the Dammaram under settlement. The Dammaram of Kandaswar is contiguous to the Dammaram. The Village of Telamery Paltier, Telu & Telamery. Alungolam Ayen Villages are contiguous to the land Dammaram of Kandaswar. The average Wet income of these Ayen Villages are 6-5-4, 7-2-10, 4-11-8, 8-5-12, 4-11-8. The average of these four Villages comes to 6-8 Papes per acre. But these Ayen Villages are far from the Dammaram under settlement. In consideration of the fertility of soil & from the valuation of the Village as follows. The average Dry assessment of the Ayen Villages comes to 7-2 Papes per acre. The Melworn say that the four Ayen Villages are superior to the Dammaram under settlement.

20 Acre of Wet full watered once annually & partly 20 times at 5 1/2 Papes per acre 110-
1/2 Acre of Wet Water full 15 Papes per acre 6-8-
100 Acre of Dry full watered at 10 Papes per acre 100-
28 1/2 Acre of Dry Water at 4 Papes per acre 8-4-6-
77-107-
116-8-
115-8-
