The person of 185 seems to be a relative of the person who sold the Village in 1810 to our
 Subbaramanige Iyer. It appears by the transaction & by the subsequent progress that the above
 sales are bonafide & that the directors of the persons of 185 were duly granted the Village.
 As there is no direct proof of this, I recommend to confirm the Village on 1/6 and 1/10
 persons of 185.

Valuation

II. Wet lands depend upon one Tank of moderate size. It is in repair. It is fed by a single
 stream on the Tank is filled annually. Plenty of water is not felt generally. Wet lands are full watered
 in full. Some of them are full watered annually 2 times. Mangala & Pungala lands are of a medium character
 The contiguous Sanyir Village is Pungaraya. The average Wet assessment of that Sanyir Village calculated for a
 period 15 years from 1250 to 1270 comes to 5-8 per acre. The Dry assessment of the contiguous Sanyir
 Village is 1-2 per acre. The average income of the Village as per statement of the Taluk of the year 1816 is 4-2
 Pice per annum. This Village is in flourishing state like the adjacent Sanyir Villages. In consideration of the
 fertility of soil & I frame the valuation of the Village as follows.

Wet 10 1/2 Acre full watered annually once & partly 2 times at 5 1/2 Pice per acre = 57-12-0
 Dry 10 1/2 Acre full watered at one Pice per acre = 10-0-0
 Total = 67-12-0
