

Register No. 1214

Seckilyanendal சீக்கிலியன்டல்

MS. 12164
1 This is one of the villages in the territory of Pongu. It is entered as ^{St. John's} ~~St. John's~~ in the Account of 1721. It is proved that this Village is in possession of the same person since the last 62 years. I recommend to compare the Village to the Map on p. 8 of account under the circumstances detailed in para. one of the Report of the Village of Silambanur which is placed with this. These two Villages are in one & the same position.

of Llanabonnewel which is placed with this - these two villages are in one of the same position -

4. Porcu of Pages 2-71 entered in the Estimador Account, as ^{accepted} in the settled and on the reasons stated in para 3 of the said Register of Llanabonnewel.

III. No Takaran about the boundaries of the Village on the part of the Range & the ...
... continued here & the 29 Apr & 26 of notes entered therein are registered here.

Sheet No. 1377

in the Account of 71266. Since the boundaries are confirmed here & the 29th Jan 1807 and in the

IV. - The lands in the Village depend upon one tank - the water in the tank is not sufficient for the average in some of the Village is 3-8-0 per acre - most of the Wet lands are waste since the tank 30 or 40 years - Average for the average in some of the Village is 3-8-0 per acre - The further states that the Tank lands may be brought under plough within the next 10 years if the tank is restored - The 7 other Panchayat Villages are waste from the negligence of the Government's servants - Soil of this Village is of medium fertility - generally - The contiguous Panchayat Village is Pallayaramadai - The average Wet area of the Village comes to 6 Acres per Acre - while the Dry area ratio may vary from 1-2-0 to 0-1-0 per acre - For consideration of the state of the Village I frame the valuation as shown in the accompanying ^{Table} - below

Wet	Dry	Total
Wet 13 1/2	Dry 13 1/2	Total 26
