IV --- The lands in this Village are undivided - The village is enjoyed with equal shares as shown in the margin of the preceding side - No Porcupine -

Kuraki
 20-
 19-80

III --- No Talk was about the Area or about the boundaries on the part of the
Rang's Talked - The boundaries now inserted in the vernacular statement.

In Rptr
of AD
1815

In Reply to the Report of the Surveyor of the Lands of the Province of the River St. Lawrence, dated the 10th of June 1815, in relation to the boundaries of the Village of St. John, I have the honor to inform you that the boundaries given in the Potta correspond to those given in the Account of 1764. So far as the boundaries are the same, though there is some difference in the wording. As the boundaries are the same, the charges of Lands confirmed here & the ~~1764~~ 1762 Acts & the 5th of the Act are registered here.

IV --- Wet-lands in this Village depend upon one Tank - It is in
repair - It is fed by a single stream - The Tank is filled annually - Scarcity of water is
not felt generally - The holders of the Village plough the Wet & Dry & arable lands as
cultivated ones - They said that all these lands are cultivated annually - $\frac{1}{3}$ of the Wet
lands are said to be cultivated 2 times - Karyak & Pringak lands are not of a very
superior quality - Ryas are of good quality - Little A-gew put does are collected with
garden crops - There are Neerarambani lands - No portion of Dry lands is fit to be
converted into Wet - The village is a good estate - The average income of the Village as
1 time -

per acre of the Muzaffarman is 207 Rupees per annum - This is not true -
The contiguous Ayer Villages of Ayer Villages are Kandani & Periniakidale. The
average wet assessment of these Villages calculated for a period of 15 years from 1725 to
1770 comes to 5-⁰⁰ 47 3-6 per acre respectively - The ^{average} dry ^{assessment} ^{of the} varies -
from 1-2-0 to 5-0 per acre - The holders of this village say that this village may be
classed on par with the surrounding Ayer Villages. In consideration of the fertility of soil

²⁵⁴ I frame the valuation of the Village as follows.

-Wet 58, Area 710 ft² at 6 Puffs per Area - 348-98-

Dry 39 Apr & 60 Feb at 1 R. per an 3996
