Average Ratio of Government Expend per Acre
 Eng 1-5-6
 Scot 4-6-1

From <i>G.</i> 1856 to <i>H.</i> 1270	Cultivated area in Acres	Grass outturn	Grain yield at 45 percent	Average price of grain	Value of quantity of grain grown in Col 4.	Ratio per Acres
<i>R.</i> in <i>P.</i>	<i>A.</i> <i>C.</i>	<i>R.</i> in <i>P.</i>	<i>R.</i> in <i>P.</i>	<i>R.</i> in <i>P.</i>	<i>R.</i> in <i>P.</i>	<i>R.</i> in <i>P.</i>
17484.7	12239.5	x	71059-3.2	1-8-3	107906-2.7	8-13.7

As the figures in Col 4. include "varia putt" or quantity of grain for which some of the lands have been Rented out and as the Gro's outturn of the Villages thus Rented out in kind is not known the Col 3 is left blank. —

The Wet lands depend upon two Tanks of moderate size - The ^{the}
in refer^d. They are fed by the Sakti Water & Malavathammy a large & important River Tank.
It is fed by a rivier. The Tank is filled annually - Fertility of Water is not good generally.
The borders of the Village being that 22 Acres of Wet + 6 being dry are cultivated annually & the rest
Matted land - Some of the Wet lands are cultivated annually 2 times - Wet & Dry soil is of a superior quality
generally - The average income of the Village as per statement of the Mahajanams is 80 Rupees per annum
This is not true - The contiguous Ryoti Village is Pattamangalam - The average Wet assess of that
Village comes to 873½ Rupees per Ann - The average dry assess of the said Ryoti Village varies
from 1-8 to 1-2 per Ann - The average income of the Village may be
raised on par with that of the contiguous Ryoti Village - In consideration of the fertility of soil &c
I frame the valuation of the Village as follows - I consider as the holders of the Village must that
the rating assessed is high.
