more

There is another Village known by the name of Kalamani the Register of which is placed with the
which is also referred to as Mattaparam in all the Accounts same in the Kalamani Register
of 1823 & in the same day Account of 1864. This said Kalamani also belongs to the
persons of 16 who are mentioned in the Register of that Village as 647 of 16
The persons of 16 & 16 and a portion of the Village of Kalamani to others
The persons of 647 of 16 said find that they are not documents of any kind or description
to show that these Villages were purchased by their ancestors. Ultimately, after their disappearance
about 2 months, they produced a bill of sale dated 1809 - during this time two
Villages were purchased by their ancestors for Rupees 350. Given by the
sale is on a plain paper leaf. No witnesses to prove the genuineness of the document nor it
was attested by any Village - Hence the document is of no use - The results of my enquiry
go to prove that these two Villages were Mattaparam Villages & that the Mattam fell into decay
& the charity of feeding poor men was discontinued since the last few years. The for
& Manager of the Bazaar presented to me on the 30 September 1863, the a Bazar address
on the 26 August of the same year by the Tapiloon of Devasthanam Dept. & a Bazar
before him by the person of 24 of 16 & by the Sambal of an or Read paper of the Village under them
From this it is clearly found that the Mattam fell into decay & the charity of giving food once in a year
to Brahmins & occasionally to Pundars was discontinued since the last 7 or 8 years. The Devasthanam
Tapiloon alluded to the Bazar dated 30 September 1863, an address presented to the former Manager on the 27 June 1857
by the Head Pundaram reporting the ruined state of the Mattam & the certain misconduct of the person of 24
The Mattam is properly known by the name of Razappa Pillai Mattam. It is situated within the limits of
Village of Ponnichalam. The persons concerned are in the habit of interfering with people who report
reporting such things when from there not satisfied. The person of 24 of 16 gave a Bazar before the
Devasthanam Tapiloon on the 4 July 1863 stating that he will rebuild the Mattam within a period of 2 months
He never did so up to the day. The Mattam has another Village named Kalamani. The Devasthanam & there
omitted to make mention of it in the above paper as the most part of it was purchased by their friends -
The results of my enquiry go to prove that the Mattam fell in decay some 60 or 70 years ago though the
building fell into decay a few years ago. The reports of the Tapiloon & others alluded to are not correct
The proof of this is, the sales that took place from 1826 to 1861 in the Village of Kalamani, which is also
entered as a Village belonging to the Mattam under settlement, in the accounts of 1821-1823 & 1815-1817 & 1824
(This must show)

III. No Tulkamen about the area or about the boundaries on the part of the Range Valley - The boundaries correspond to those in the account of 1924 -
Hence the area of 82 Acres or 62 parts is confirmed here. The person No 1 & 2 of 18 are and indeed brother -
- The elevation. -

Hence the area of 82 Acres 63 perches is confirmed here. The persons No 1 & 2 of B are said to have no share in the land.
Valuation
 IV. Wet lands depend upon old Tank. It is in repair. It is fed by a Pungla Stream. The Tank is filled annually. Security of Water is not felt generally. Nanjappa & Pungla lands are fullwatered annually in full. Some of the wet lands are fullwatered annually 2 times. Wet & dry soil is of a superior quality generally. It is red clay. The Village is in pretty good state. The average income of the Village as per attach of the Debans amount is 24 Rs per annum. This is not true. The contiguous Ayer Village is Ponnattalam. The average Wet amount of the Village calculated for a period of 15 years previous to 1273 comes to 57811 per acre. The average Dry amount of the Ayer Village is varies from 24 to 012 per acre. The Prof. 16 say that the soil of the Village may be classed on par with that of the contiguous Ayer Village. In consideration of the facilities given &c I frame the valuation of the Village as follows.
 24 Rs per acre 36
