This is one of the Dammasanam Villages in the Taluk of Nattarasankottai. This was granted by Mahabalaraja Rajah to one Sundara Mayan for subsistence. This is a hereditary grant. This is an unimpaired possession of the land since the date of the grant. This has no Patta. It was lost at the time of the grant. The land was entered as Dammasanam in all the Accounts in 1812. No talk was about the area or about the boundaries on the part of the Rango Viceroy. The boundaries now inserted in the revenue statement correspond to those in the Account of 1812. The boundaries are confirmed here & there. 46 Acres & 20 Puts situated therein are registered here. The village consists of 8 equal Thitties. They are enjoyed as shown in the margin. The lands are undivided. Purses paid on the number of Thitties equally & permanently.

Sheet No 1581

II. The present holders of the Village are not in any way related to the Original Grantee. They are alienees.
 III. The persons of 1815 & 1816 purchased their lands partly by their own money & partly in the name of their ancestors in A.D. 1771-1808-1809-1812-1853. The persons of 1815 & 1816 purchased their lands partly by their own money & partly in the name of their ancestors in A.D. 1771-1808-1809-1812-1853. The persons of 1815 & 1816 purchased their lands partly by their own money & partly in the name of their ancestors in A.D. 1771-1808-1809-1812-1853.

IV The person N 16 of 06 purchased the 1/4 Vethy entire opposite to his name -
in 1855 from the father of the person N 13 & 14 of 06. In 1858 -
Bill of sale is on a plain paper. The person N 16 and the person N 13 & 14
jointly received the 1/4 Vethy, as the latter purchased away with the produce thereof of one year.
Upon this, the person N 16 entered into a Rajasmanish about 4 months ago and is now residing in
Kerala. The person N 13 & 14 are now residing in the village of the person N 16. At the request of the
person N 13 & 14 & in accordance with the order of the Rajasmanish, the 1/4 Vethy is
registered in the name of the person N 16 who has possession of it now.

Valuation

V Wet lands in this Village depend upon two kinds of moderate size. They are in repair by a Jungle Stream. They are filled annually in full
Scarcely of water is not felt generally. The Mangamam of 11 Acre & 20 fathoms of water & 2 Acre & 80 fathoms of dry as full water lands & 9 Acre & 80 fathoms of wet
& 6 Acre & 16 fathoms of dry as waste. They say that the wet lands are partly full water & partly left are left waste since long. I see no reason why they should
clasp some of the full water lands as waste. They are unable to explain this satisfactorily. They again say that these waste lands are full of full water early -
Nangak & Pungak lands are not of a very superior quality & at the same time they are not of a very inferior quality. Some of the wet lands are
full water annually 2 times. The average is in pretty good state. The average income of this Village is 24 Pappas per annum per Acre of the
land. This is not true & it is quite overvalued. There are no other villages contiguous to this. In consideration of the fertility of soil &
the name of the place of Ponnaly & Pungak. I frame the valuation of the Village as follows -
Dry 4 Acre & 80 fathoms of water & 2 Acre & 80 fathoms of dry as full water lands } 1 1/2 -
Wet 4 Acre & 80 fathoms of water & 2 Acre & 80 fathoms of dry as full water lands } 1 1/2 -
Total 8 Acre & 160 fathoms of water & 4 Acre & 160 fathoms of dry as full water lands } 3 -

- 1. Pambikhalam } Co - (9) 1 Acre 1/2
- 2. Pambikhalam } Co - (10) 1 Acre 1/2
- 3. Pambikhalam } Co - (11) 1 Acre 1/2
