as per statement of the Mahaswamys is 57 Rupees per acre - This is not true -
 The contiguous village is Aralykote. The average old assessment of the
 village calculated for a period of 15 years previous to 17270 comes to
 7 to 8 per acre - The Mahaswamys say that the soil of the village is ~~unsuitable~~ ^{not} for
 infer to that of the contiguous village - This seems to be true to some extent -
 The consideration of the fertility of soil & I frame the valuation of the
 village as follows -

Wet 1/2 per acre cultivated annually at 6 Rupees per acre 102
 Wet 3/2 per acre of an inferior quality at 3 Rupees per acre 108-0
