Valuations

1 Wet lands depend upon two Land of moderate size. They are sound in strength - They are fed by a
- Single stream - They are fed by the tanks of the adjacent Villages - The tanks are filled annually -
- No scarcity of Water is felt - Wet & Dry lands, are cultivated annually in full - One fourth of the Wet
- Area is cultivated annually 2 times - Soil is of a medium character generally - There are some superior
- Lands - Paddy is raised in one or two series of Dry lands under Wells - annually - The Village is well flourished
- State like the surrounding Villages - Dry lands are cultivated only once - I have no opportunity to enter
the - here the average assessment of the neighbouring wet lands - The marginally noted statement of 16 will show
- the average assessment of Wet lands of a village in which the Darvasanams under a different assessment is
situated - This average assessment is somewhat higher - The Dry lands are pruned as follows in the
adjacent Ryen Village. Altogether -

22. I was at 11. water at 1.10 - further -

If Donna is cultivated at 110 - further
 If Pulao are grown - at 013 - per acre -
 If Tarapur is raised - at 110 per acre -
 If cotton is grown at 600 per acre

No Donna or Cholem is raised in this Village nor Cotton is grown.
The average income of the Village as per statement of the P. O. is 4.
This is quite false - With reference to the fertility of soil &c.
I know with the aid of the Mahajanams -

Oct. 22nd Acres, in consideration of the lands that are } 113-12-
 Cultivated 20 times, at 5th of a penny per acre ———— }
 Day 8 Acres at 13th of a penny per acre ———— 14 ———
 Total — 127-12-0
