III The person N 2 of 16 pleads that he purchased the 3 Thittus extent opposite to his name - in A.D. 1844 - for Rs. 175 from Dorasawmy alias Thakate Subbar, Elam Brother of the person N 1 of 16 - that the bill of sale was robbed by the person N 1 of 16 about 6 or 7 years ago; that he complained of this to the Local authorities, that the said authorities maintained his enjoyment of the said 3 Thittus; that he is in possession of the land up to the day & that in A.D. 1854, the person N 1 of 16 & he settled the dispute before certain arbitrators, who awarded him (N 2 of 16) the 3 Thittus -

The person N 1 of 16 says that he sold in A.D. 1844 to the person N 2 of 16, when he was a young boy - 1 1/2 Thittus & mortgaged to him 3 Thittus in the same year, that about 2 or 3 years after A.D. 1844, the sale of 1 1/2 Thittus were annulled, and that the person N 2 of 16 is enjoying now only 1 1/2 Thittus in mortgage - The person N 1 of 16 failed to prove his arguments or allegations - either by witnesses or documents - The person N 2 of 16 says that the person N 1 of 16 is enjoying 3 Thittus in the Village up to the day & that he does not know the fact of the Elam Brother of the person N 1 of 16 having sold or mortgaged the 3 Thittus in question -

The person N 2 of 16 files the following documents -

A... Assistant Magistrate's decision dated 25 January 53 stating that the complaint that the person N 1 of 16 robbed the bill of sale 1844 by breaking a lock is not proved that the 3 Thittus should be enjoyed by the person N 2 of 16 as heretofore - & that the person N 1 of 16 is to seek redress in civil courts -

B In appeal Magistrate's decision dated 6 August 53 - confirming the above decision -

C... Panchayat decision dated 1854 - There were two plain persons - From this it appears that Panchayatdars who were consenting to 2 Brammas & 6 Pongos, enjoined the person N 1 of 16 regarding the bill of sale to have been ^{of the 3 Thittus in question & the value of the 3 Thittus} paid to him by the person N 2 of 16, are with him (N 1 of 16); that upon this the Panchayatdars decided that the person N 1 of 16 should give to the person N 2 of 16, the Bill of sale & the receipts awarded the 3 Pongos to the person N 2 of 16 - among other things -

IV... The person N 1 of 16 admits that the document C is a genuine one & that Panchayatdars divided the 3 Pongos equally between himself & the person N 2 of 16 & that the bill of sale one entered by him to the person N 2 of 16 for having sold the 3 Thittus to the person N 2 of 16 & a receipt granted by him to the person N 2 of 16 for his having paid the value of the 3 Thittus to him (person N 1 of 16) are with him & that he (N 1 of 16) kept them in some Village or other - The Panchayat decision bears the signature of the person N 1 of 16 & 2 of 16. Some of the Panchayatdars who appeared before me stated that they awarded 3 Pongos to the person N 2 of 16 which he proved to have been purchased & that the person N 2 of 16 is in possession of the 3 Thittus - up to the day. It is clearly proved that the person N 1 of 16 sold 3 Thittus to the person N 2 of 16 in 1844; that as he was young, his mother conducted the transaction, that the person N 1 of 16 robbed the Bill of sale & that the person N 2 of 16 is enjoying the 3 Thittus - ^{the person N 1 of 16} The Elam Brother of the person N 1 of 16 is alive - He is enjoying his share in some other Village - He never appeared before me after a number of years from his first appearance - & he never filed a claim to these lands - (The next deed)

The present No. of 16 panchayat 5 Villages is 1822 & 1843 for Rs. 100 from Duraswamy Egar alias Subarnaree and the
 Bill of sale of 1843 is on a stamped paper leaf. & two bills of sales of 1822 are on plain paper leaves - Transaction proved to be bonafide - Enjoyned proved -

Valuation

17. Nari a small Village - Wet lands in this Village depend upon one Tank of moderate size. It is in repair. It is fed by a Single Stream & the Tank is filled
 annually - Fertility of the soil is not good generally - Wet lands are cultivated annually in full - 4 Ann of Dry are cultivated annually - Some of the Wet lands are cultivated
 occasionally & twice - Kharif & Pongal lands are of a superior quality generally - No grain crops are raised. The average income of the Village is 40 Rupees per
 annum as per statement of the Mahazamans. This is not true - The contiguous Ayer Villages are Potturajinad & Ytterinjil - The average Wet assessment of these
 Villages calculated for period of 15 years previous to 1770, amounts to 7-2-7-15 per acre - respectively the average of these two Villages comes to 7-8-
 Ann - in aggregate. The Mahazamans say that the soil of this Village is somewhat inferior to that of the Contiguous Ayer Villages. Though the Wet lands
 are close to each other & the Villages are contiguous to each other. The average Dry assessment varies from 1-2 to 5-13-8 per acre. In consideration of the fertility
 of soil & I frame the valuation of the Village as follows. The soil of the Village seems to be somewhat inferior to that of the contiguous Ayer Villages as compared
 by the Mahazamans -

Register No. 670

Wet - 15 Ann cultivated once annually in full & partly 2 times at 6 1/2 Rupees per Ann 97-8
 Wet 5 1/2 Ann of an inferior quality at 2 Rupees per Ann 11-8

Dry - 4 Ann cultivated at 1-2 per Ann
