Register No 412

Sheet No 553

Varigeneendal, Surakudi, Nayaram Kurchigeendal and Padattamendal

I These are the four Villages in the Zemindary of Pevyanga for the support of a Mattam in Pasangayam Village - This has no Pollam - This is an ancient grant - It appears by the tradition that the object of the grant is to keep the Mattam, which is presided by the Priest of Gotamy Velaya Uttangudi Nattukottai Settiar, efficiently by feeding Brahmins - in a Chattram situated close to the Mattam by Worshipping the Swamy in "Palemboy Nader Covil" situated close to the Mattam and by maintaining the dignity of the Priest - Since the object of the grant is efficiently kept up by doing all the above things - The Settiars who are very rich spend considerable sum annually for feeding Brahmins - The Priest of the Mattam died about 15 months ago - The Settiars are in contemplation in electing a Priest for the Mattam - It appears that when the Priest was alive, some of the Principal Settiars whose names are given below were managing the affairs of the Mattam & the Villages attached but the Managers or Trustees are elected by the Nattu community itself - Thus the grant falls under Rule III Clause one Inam Fasli - Hence a hereditary grant - There is uninterrupted possession by its holders since the date of the grant - The Village is entered as Pasangayam Mattam Village in all the accounts from 1212 - The persons of 16 are now Trustees of the Mattam & they are managing the affairs properly -

II The boundaries of these Villages which are situated contiguous to each other are not recorded in the accounts of Fasli 1246 & Fasli 1246 - In the accounts of Fasli 1211 the names of the Villages of Varigeneendal, Surakudi & Nayaram Kurichi Gyndal are entered & the name of the Village of Padattamendal is omitted - It is heard that Padattamendal is a Hamlet of Varigeneendal - In the accounts of Fasli 1223 & of A.D 1815, some of the Villages were entered per Sarvam Sist of Padaru as Padargudi - the names of which are not known, hence - (Theermal ends)

III Four Villages are brought here on record the same Register as the area of the seizure is entered in Cumpa in all the Accounts—
In the Account of Fr 1211 the area of these Villages was under settlement is given as 16 Acres 2 Likh— In the Account of Fr 1223 it is entered as 44 Acres—
& in the Agent Account of Fr 1263 it is entered as 44 Acres & 80 Cents— Now the Trustees of Collr added 126½ Acres of Wet & 280 Acres of Dry & the Area entered in the Account of Fr 1211— This is a manifest increase— The Trustees produced an Authenticated copy of a Melvaram Cowle dated 1808 & which was registered in the Board under 5th August 1809— & which contains the boundaries of these Villages— This Melvaram Cowle contains the four Villages now brought on the Register— The object of the Melvaram Cowle was to establish the boundaries of these Villages— The boundaries are not such as to prevent the Trustees from encroaching upon the adjacent Agrm lands— The Vakeel of the Rany of Sivagunga made a remark on the return calling the statement that he has no Ground to dwell with the boundaries— The Zemindar Vakeel is saying that the Melvaram Cowle which are entered now in the Board's statement of these Villages are under Settlement— I doubt the Vakeel is saying that he has no reason to find fault with the boundaries of these four Villages— where the excess is a trifling one— There is a large Agrm Village of Pattavam— which is contiguous to these four Villages— This is one of the Sub Division of Zemindaris Villages called Thelumbara Chetty & Annamalai Cumma Chetty about 3 years ago— & this Village was under mortgage with Annamalai Cumma Chetty one of the sellers— I doubt whether waste lands of this Village Pattavam & other Villages were added to the Villages under Settlement by the consent of the purchaser & mortgagee— These Settlers look much to the Mattam than any thing else— I doubt that the Chetty who purchase the Village of Pattavam has hereditary right in it— If he is immediately falls in possession of Govt, I doubt that he will take interest in it— If he has right, the purchase of the Agrm Village will be an excuse to encroach the lands of the Agrm Villages to his interested Mattam Villages— On the above as the Zemindar Vakeel is silent & there are no complaints of the Trustees having encroached upon any of the Agrm Lands I registered the 420 Acres & 54 Cents— The boundaries given in the Melvaram including the lands of the four Villages under settlement— The Peishcush of all the Villages belonging to the Mattam is 1321 Rs— as Cumpa Village was delayed & the same are not known—

IV ..... The Evaluation is under the management of the Trustees with these Villages— The Zemindar makes no objection to registering the names of the Trustees here—

V The average income of these Villages is 745 Rs per Annum—
