The Conservation Apposite to the Temple No 7 C of 16 was granted by the Kalayaram subsequent to the permanent Settlement for the supply of the Temple. Hence this is a period subsequent to the permanent Settlement for the supply of the Temple. Hence this is a period. Dammes aram. No measurement was made with a view that the Swamy on the Temple Land

Conservation one

of the Temple of the per Swamy No 87 of 16 - purchased from the proceeds of the Temple of the Temple Conservation Apposite to the Temple and in 1850 & 1855 for repairs of the Temple. The Conservation Apposite to the Temple and in the shareholders visit of Jagadeva Sri Pillai of Jaffna are 7528 - on 6 occasions from the shareholders visit of Jagadeva Sri Pillai of Jaffna are - transactions proved to be Bona fide Enjoyment &

Valuation

The Wet lands depend upon two tanks of one is large & another is small. They are irrigated strongly. They are fed by a Temple Stream & some springs & by the water that is conveyed from Dammes aram Village & adjacent Villages. Soil is not of a superior quality generally. It is sandy. The Ryots may take a crop of Kadalai & Payaru & they are generally 2 crops. The Ryots may take a crop of Kadalai & Payaru & they are generally 2 crops. but get the cultivation. They grow only 5 or 6 acres of Kadalai are cultivated annually. Punjah lands are cultivated only once. In Punjah lands Varagu crops are raised. Kadalai Vaalai is raised in one or two acres & Dry - owing to the locality under providential irrigation the Village is in flourishing state but the soil is not fertile. No measures to Guard the average assessment of the adjacent Agam Villages. The average Wet assessment of the Revenue in which the Punjah rate of the adjacent Agam Villages are not varied. The lands cultivated with Varagu & Kambu are charged at 9 Cts per acre. In the Village no Kambu or Varagu is raised in Dry lands. The average rate of the Village as per attested of the Ryots is 98 - Ryots per acre. For consideration of the work & from the valuation of the Village as follows with the aid of the Ryots

32 acres of Wet cultivated annually in consideration of the area cultivated 2 times at 4 Ryots per acre — 1-4-0 — 145-4-0

2½ acres of Wet was at ½ Ryots per acre being immemorial rate — 46 13

87 acres of Dry cultivated annually at with Varagu at 9 Cts per acre — 1-2-0 — 69-15-0

4¼ acres of Dry lay grounds at 4 Ryots per acre — Total 95-3-0
