portion -

70. The Magars ~~pleaded~~ pleaded that the above documents are not genuine - The ~~Chitragar~~ Chitragar & the Magars stated that they (Magars) are enjoying $\frac{1}{3}$ of the land, in income of Dey-
in Kathage. The Chitragar of the holders of the Durmasanama portion ~~pleaded that~~ said that the Magars are enjoying $\frac{1}{3}$ of the whole area & 15 Kumbhar or the same
of 85 fathoms of Dey & the rest are in possession of the holders of the Durmasanama portion - All the above documents proved to be forged by the Chitragar who brought them are no-
persons who attested them are alive - After full days enquiry both the officers & dependants altered that as the holders of the Durmasanama pleaded that the Magars have not
the whole land ~~from the~~ from the $\frac{1}{3}$ of the whole area; the Magars pleaded that they have right to $\frac{1}{3}$ of the Pungla lands - The holders of the Durmasanama
~~admitted~~ admitted that $\frac{1}{3}$ of the whole area, inclusive of the crops is in possession of the Magars in addition to

It is true that the Mayans had a Patta for the $\frac{1}{3}$ of the entire Village. It seems ^{that it would} however have been annulled subsequently by the Patta of A.D. 1783 which the
Damascanam shareholders hold; because it is said therein that the entire Village was bestowed as Damascanam some 15 Ralling (i.e. or $10\frac{1}{2}$ Annas of the "Pactai" name -
because the Pongayat decision of A.D. 1787 shows that the ~~share~~ arbitrators then awarded to the ancestors of the Mayans only $\frac{1}{5}$ Ralling (i.e. or $10\frac{1}{2}$ Annas -
Note 123 p. 11

Sept 1833, the Mangarans had no Pangah lands at all. In that year the then Paribajelians awarded $\frac{1}{3}$ of the Wet Area, some 600 g. of land to the Mangarans. Now the Dry lands in possession of the Mangarans are said to be 15 Acres & 80 faths as admitted by both parties. The Mangarans of the Mangarans are said to have given serious falsehoods before me by saying that the Mangarans are enjoying $\frac{1}{3}$ of the whole area of the Village.

Sheet No 979

Now the Dry lands in possession of the Mangonians are said to be 15 Acres & 84 Cents as admitted by both parties - The Mangonians of the Mangonians are said to have given serious falsehood

Regretted before me by saying that the Mangonians are enjoying 1/3 of the whole area of the Village.

No Toll was asked about the area or about the town series on the part of the Range District. The boundaries now inserted in the new calendar sheet correspond to those in the Account of 1926-27. The boundaries in the Account of 1926-27 differ from those in the Pottas produced by the Mangonians & the holders of the Damodar portion. The holder of the Village said in writing that the town series given in the Potta & in the Account of 1926-27 are one & the same or the spot. Hence the boundaries are confirmed here & the 362 Acres & 86 Cents estimated thereon are registered here.

24th. The Tsekai is efficiently kept up. Annually & daily certain ceremonies are performed & Fakes are fed. The portion belonging to the Tsekai is Larva allongue & free from all Tax. The portion belonging to Tsekai is confirmed under Rule 111. please see -
No. 1. ... divided permanently. Proper is paid on 11.

VIII. The Dammassanum portion consists of 12 cycles. Further they are enjoyed as shown in the margin. The lands are divided permanently. Proper is paid on the
 number of Thistles ~~as~~ equally & permanently -

The holder of the Darmasaram portion are abances & not the descendants of the Baji Grants. The father of the person M^r B. B. V. 16 & 17, they names comprised the lands entered opposite their names in A.D. 1832-1836-1842 & 1854. from Paganayen; Ramaswamy Eyer, Ganapathy Eyer, Subbayen; Rantonyen; Pasupathy Eyer, Matta & Ramatebaya Pillai & Karappa Pillai - charans in the village. Bright bills are on ^{the stamped} ~~plain~~ Pagan leaves & one bill is on a stamped paper. The person M^r B. V. 16 acquired ten lands in gift in A.D. 1853. from the person M^r 293 & 16. from illegitims children. Deed of gift is on a plain Pagan leaf. The abances admit the transaction - Enjoymnt proved - All the above transactions proved to be bonafide. Enjoymnt proved.

X. Wet lands depend upon one Tank of moderate size - It is in repair. It is fed by a Jungle Stream & by the Waste Water of the adjacent Agri Villages.
Scarcity of water is not felt generally - Panjath & Panjab lands are cultivated annually a part at least of the Madagams. Some of the best land is occasionally very few times must be left waste from some cause or other. Some of the best lands are fallow twice annually & some $\frac{1}{4}$ of the whole area is sown & the fallow time on an average -
Panjab & Panjab lands are of a superior quality generally - The soil is Rayer or Kharier & Tandiak (alluvium) The village is in flourishing state -
The average income of this Village is that is, Dammassanum portion is 252 Rupees per annum as per statement of the Rayer of Madagams. This is not true
The Contiguous Agri Villages are Aroaksey & Kotegur & Chit... P.
The average Dry assessment of the contiguous

In considering the fertility of soil &c I frame the valuation of the Village as follows:

Wet $2\frac{1}{2}$ Acres cultivated annually at 7 Reper per acre	178-8-0
Wet 4 Acres of an inferior quality at 5 Reper per acre	20-0-0
	<u>198-8-0</u>
Dry 150 Acres cultivated at 172- per acre	262-8-0
Dry 46 $\frac{1}{2}$ Acres of an inferior quality at 8 Reper per acre	46-8-0
	<u>309-0-0</u>
	<u>285-17-0</u>
	<u>507-8-0</u>
