The inhabitants of the village of Katturay argued that 60 Kurukkam or 233 Tan & 60 fath of immemorial waste claimed in the present day is situated within the boundaries of their village. The holders of the village argued that the waste is situated within the limits of the village. The boundaries in regard to the both these villages in the account of 1726 are very vague. They do not show to what village these disputed lands do belong. Upon this I suggested that the dispute may be settled by a Panchayat. The holders of the village agreed to settle the dispute by making a Panchayat. one of the results of the village to run on each on the boundary line. according to local use. To this, the Panchayat was agreed. Sometime after this, the holders of the village said that he is unwilling to let the dispute settled as proposed by the foregoing arrangement. The inhabitants of the village of Katturay argued that they will settle the dispute by a Panchayat. To this arrangement, the Panchayat agreed. The Panchayat was agreed.

The village is in good state. The Panchayat was agreed. The Panchayat was agreed. The Panchayat was agreed.

The village is in good state. The Panchayat was agreed. The Panchayat was agreed. The Panchayat was agreed.

IV. The Trustee of the Maham of Rahnirajset purchased 12 Thutur in A.D. 1850 & 1851 for Rs. 4385-8-0 from one Sankar, Pubbyan, Muttaya Pillai & 11 Thutur from Sankar. Pubbyan & 11 Thutur from Muttaya Pillai. These lands were purchased from the family of the Maham. The said Sankar, Pubbyan purchased the one Thutur previously in A.D. 1854 from one Ponnammal, shareholder in the village. Muttaya Pillai purchased the 11 Thutur previously from Gaddara Pany, Ramaswamy Iyer, Ramayyan, Narayyan, Kapala Subbayan & shareholders in the village. Bill of sale of 1850 is on a plain paper leaf & the bill of sale of 1851 is on a stamped paper. Previous bills of sale are on stamped paper leaves & these are on plain paper leaves. Transactions proved to be bona fide by witnesses who attested the bills of sale. Enjoined proved.

II. One Narayana Pany claims one Thutur from the Trustee of the Maham on the ground that his father mortgaged the lands 6 or 7 years ago to one "Achary" whose name is not known & that the said "Achary" sold the land to the Trustee in property. He failed to prove the same & produced a deed of gift dated A.D. 1804 showing that one Annarayyan & 3 Panyas to Narayyan & the Grand Father of the Plaintiff. The deed of gift is on a plain paper leaf. He produced also some bills of 1825. These he falls to establish. In these bills one Panyas is entered in the name of the ancestor of the Plaintiff. The genuineness of the documents is not proved. The deed of gift dated 1804 appears to be a forged one from its very face. The Plaintiff failed to say what became of the Panyas mentioned in the deed of gift. Hence the claim is rejected. The land is referred to civil court. The land is now in possession of the Trustee.

- Valuation -

The village is in good state. The Panchayat was agreed. The Panchayat was agreed. The Panchayat was agreed.

 177-12-0

I returned & reported that the village
 of Darnley refused to receive
 them any more & prevented them
 from conducting their business.
 This the matter was lying for
 months together & repeatedly
 tried to settle the case as early as
 possible. Ultimately a few
 days ago the holder of the village
 represented to me that the village
 of Darnley is ready to accept of
 the terms of the village.
 All these were owing to the ignorance of the trustee & the stupidity of his servants who measured lands more than once. When I settled on the 3rd Account, the value of the
 land was taken as a whole, which is placed with this. saying that the said 3rd Account is a correct one & that if any excess is found above the area given in that Account, I am
 at liberty to assume it. Soon after this, the trustee presented to me a Petition saying that the 3rd Account is not found to be a correct one & that the 4th Account
 should be placed in the place of the 3rd previous Account. Hence the 4th Account is added in this settlement. The trustee says that the 3rd Account was prepared on estimation
 & the 4th & 5th Accounts on wrong measurement & the fourth on a correct measurement.

The holder of the village produced 4 Accounts as follows

	As per 1 st Account	As per 2 nd Account	As per 3 rd Account	As per 4 th Account
Value	49-45	68-70	27-95	53-30
Day	170-96	62-16	81-20	81-20
Total	170-41	130-86	109-15	134-50

19th 64
 J. P. Panchayat

Sheet No. 1462

Being being quite
 displeased with this.
 I kept quiet for a few
 days & then I gave words to
 a question on the village of Darnley.
 adding the value to say to how the
 dispute is to be settled. In reply he wrote
 on the 11th of this month to the effect that
 he has seen no objection to the business
 of the village being confirmed with reference
 to the entries in the account of 1724-6 as on
 the report of the village of Darnley refused to
 settle the dispute by an
 arbitration & as his supervisor and instructions
 to him about this is the case means that the dispute
 must be regulated in the name of the holder of the village.
 The lands in dispute are of long immemorial waste.
 There is no evidence to say to what Village they belong.
 Hence though the 104th & 50th falls which are brought on the Register are registered here, they should not be viewed as disputed lands belonging to both of these villages pending
 a decree of the Court or a decision of Panchayat.
