Tavala
rased.

~~The~~ The Village is entered as Dammasanani in the account of 1722, half of the Village is entered in the name of Nanaya Pongayage by mistake. The Pongayage were alluvion of the Village. The fact of the above entries in the account of 1721 & 1723 is not correct, by the Ogl. Peta, by the account of AD 1815, by the transition. The proceeds of the Village are appropriated for the use of Malabar & not for the personal use of any. Hence the Village falls within the scope of Rule III Clause one. Tax free.

II. No Talk was about the Area or about the boundaries on the part of the Jemindars. Vakeel. The boundaries now mentioned in the memorial statement correspond to those in the Account of 1726. The boundaries do not correspond to those in the Patta - because 3 of the Tumblers - Vepangalam, Pappani Todai, & Perumal Vepend. which are entered in the Patta, have been dispossessed are not in possession or enjoyment of the Malabar since long. The details of the Malabar are entered in the Dammasanani register of Vepangalam, Pappani Todai & Perumal Vepend. which are placed with this. The Village of Tavala rased. upon settlement has four other villages

1. Parakkalam
2. Vusalingalam.
3. Ponnal Kalam.
4. Vala Chellam.

These are entered in the Board's Register of AD 1815 as separate Villages. This is not right. The Village of 119 acres & 8 furlongs that is situated within the limits of the Village, are covered. In the account of 1723, the Dry area of the Village is given as 224 acres. The crops is situated within proper limits of the Village. There is one other Village of Karungalagudi is contiguous to the Village settlement. It is said that it is situated in such a position as to give no room to the Village upon settlement to rob it. because the other Village is situated in the bed of the South of the Village of Tavala. Pongayage of this Village & its Aomlets are entered as 218 in the Estimate Account. The area reduced by 100 years ago to 164 to 10. No Talk was about this now. Hence the sum of papers 164 to 10 is adopted in this settlement.

(Hair copied)

Valuations
The houses depend upon 5 furlongs of moderate size. They are in repair. They are fed by Dargah stream. The Dry well part is of a medium size. The Village as per statement of the
