Note - As the figures in Col 4 include "Varesapatti" or the quantity of grain for which some of the lands have been rented out, and as the gross outturn of the villages thus rented out in kind is not known, the Col 3 is left blank.

III The boundaries of the Mazanam recorded both in the account of 1723 & in the Pattanam - The Mazanam was first given a Ryotwari which is placed with the statement that the boundaries are inserted in the Pattanam & in the account of 1723 are one & the same & that any of these boundaries may be confirmed. The Deputy collectors after examining the boundaries inserted in the account of 1723 & in the Pattanam or comparing the boundaries with each other found vast differences in the workings - a single difference in the locality. The difference in the workings is of no matter - as there is a difference in the locality. The difference in the workings is just allowed to be the same. On the Pattanam (This must be)
