

Village of Levilagudi in the Taluk of Mangalam of Sivaganga zamindari Estate in Madurai District.

Poster No 1244

Sevittagudi

Page 9

The case of the Village in the former case of Kanagaya - It is not known from any of the old Account when the village was granted to the service of the Government. It is said that the village was granted to one Turappa Nayaka to render the service of a Peon - but he was soon removed & incorporated with Aggar lands as the net income from the village was insufficient to cover the Brace & the wages of the Peon -

It is again said here that the disbursements of the Capt. Grantee are now being paid in ready money. This remark is unworthy of notice as it is written in italics and all the village without any data - Neither the family of the Capt. Grantee is at all nor they are being paid now in ready money -

all the villages without any delay - But the family of the Chief of the village is dead and no one is left - The village is now in possession of the British Government since the last half century - He is unable to prove that the village is in possession of the government since the last half century & that it presented itself as such.

The remark in the Account of A.D. 800 being shown that, this Village was reannexed by ~~the same~~ ^a foreigner some years -
