Ramalinga Ayan of Kanadukattan village in Sivaganga Zamindari is entered in the Permanent Settlement for 15 Pollams of land. He is a Sudra by caste and pays the Peishcush of Rs 653-47 from one Ramalinga Ayan of Kanadukattan village in Sivaganga Zamindari who is entered in the Permanent Settlement for 3/4 of the Village

Ramalinga Ayan is a person who purchased 3/4 of the Village Sethy of Tondaiman in the Village. The person of 15 is said to be descended of the Ogl Grantee of Tirumenikkaundal village. Mr. Ramalinga Sethy was a person of great Learning. Member of Sundaranayan, grandson of the seller Ryotwar previously. The bill of sale of 1836 on a stamped paper is produced by the present Ryotwar as evidence of his grant for having sold the Village to the person of 15 as stated above. The person of 15 is required to be confirmed under Sale Bill — Peishcush Rs 26-8-0 (Vide next sale)

The whole of the land being within the boundaries of the Village is enfranchised as recommended in our PD dated 21st July 1823.

A.D. 1815

Observations made in Tenjore Taluk for the ensuing year, to enable the Villages to ascertain by the Original Grantee

It is not proved entirely that the person [illegible] was a the Original Grantee. At the same appears in the account dated as [illegible] Village [illegible] may be considered as valid one—

Valuation

[illegible] Set lands depend upon one large Tank — It is in repair. It is fed by [illegible] Tank of the Ayan Village. Principal, which is fed by the river Nuttam [illegible] The Tank is filled annually. Seventy Z Sales [illegible] and Well generally [illegible] The Melwaram land 20 Acres of lands are irrigated & and Z which 15 Acres as cultivated land 25 Acres as waste — Ayan Tank 6 leaved 61 Acres Z Dry as [illegible] & 44 Acres Z Dry as waste — At the Melwaram entered the area of the [illegible] 56 Acres while the area of the irrigated lands as 20 Acres, I doubted the correctness of accounts & deputed two of my subordinates to measure the Village [illegible] The results of the measurement [illegible] are as follows —

	Acres	Cents
Lands cultivated with wet crop (Paddy)	7	00
Lands cultivated with Raggy (Irrigated)	16	24
Set lands of one or two years waste	15	14
[illegible]		
Total	36	38

Punjah cultivated & Sale lands agree with the area inserted in Melwaram statement — The [illegible] per — pence [illegible] the measurement is a conclusive, that the lands that are cultivated under the Tank — Raggy should be classed as Dry & that the Sale lands Z 15 14 6 classed as waste will be brought under plough within 4 or 5 years — The request of the Melwaram that the lands cultivated under the Tank Raggy crops should be classed as Dry is unreasonable — The Village has good Tank & a good supply of water to the present holders of the Village for from the Village. The Village is not [illegible] a state as it ought The Village will be improved soon — Some of the Wet lands are cultivated
