I This is one of the Villages in the Zemindary of Sivagangai — In the account of F 1211 half (of the whole Inam Village) of this Village is entered as Ayen & the remaining half as an endowment for the Temple of Shree Rama Nada Swamy in Ramesvaram — The (Temple Vill manager) Vakeel says that half of the Village is held by the Temple & the remaining half as Darmasanam by certain Madaganam from time immemorial. In the Account of F 1211 of the minor Inams, it is said that there are certain Inams for Village servants in the Darmasanam portion of half Village of Tokkaniendal which is now under settlement. Again the holders of the Darmasanam produced receipts granted to them for the payment of Poruppu from A D 1860, 1861 1862 & 1863 by the Zemindars servants. Hence half of the Village is treated as the endowment of the Devastanam & the rest as Darmasanam. The Temple is apparently kept up — It is one of the most noted Temples in India — The Darmasanam portion consists of 6 equal Virttees. They are enjoyed as shown in the margin. The lands are divided. Poruppu is paid on the number of Virttees equally & permanently.

II — The person No 1 of 16 acquired the lands entered opposite to his name as bequest with (the same of) other lands in other Villages from one Tiller Ammal in A D 1864. The said Tiller Ammal is the Daughter of the younger sister of the Mother of the person No 1 of 16. She first executed a Will to the person No 1 of 16 (to the effect that) that he is to support her & the younger sister of her mother, to state heirs as long as they are alive & that he is to receive all the lands after her death on performing her funeral rites. She presented a Petition to me on a stamp paper appearing herself before me personally to the effect that she has transferred all the lands to him now & that they should be registered in his name. Hence the request is complied with. The person No 1 of 16 is in possession of the lands actually. The said Tiller Ammal acquired portion of these lands in gift & the rest as [illegible] from her father previously long ago. — (Vide next [illegible])

III The person No 2 of 16 is a descendant of one of the claimants mentioned in the Village

IV The Widows No 3 & 4 of 16 never appeared though summons were served upon them often & upon the person No 2 of 16 say that their ancestors partook the shares of the Widows No 3 & 4 of 16 partook the land entered opposite the latter long ago & that they can confirm the validity of the transaction - Enjoyment proved - The late Husband of the Widow No 3 of 16 was the Elder Brother of the Widows No 2 & 5 of 16 -

V No 1 of 16 owns about the area or about the boundaries on the part of the Raiyat Vakil - The boundaries now inserted in the new counter statement correspond to those in the Accounts of Fasli 1241. Hence the boundaries are confirmed here & the 289 Acres & 20 Cubic Cents now registered here - as the Area of the entire Village

VI The Raiyat Vakil says that as the Dharmasanam portion of this Village is entered as Ayen in the Accounts of the entire Inam Village of Fasli 1241, it may not be brought under this Head In the Accounts of Fasli 1241 of the main Inams, half of this Village is entered as Dharmasanam & is proved by the receipts granted by the Zamindar to the ancestors of the person No 2 of 16 & that the Dharmasanam is an ancient one Hence the request of the Vakil is not complied - The Dharmasanam portion has no Pottah - for the name of the Grantee or Grantor is Known

Valuation of the entire Village

VII Wet lands in this Village depend upon Tanks - They are irrigated by Rain & Stream water - The Soil of the Village contains the mixture of Waste - There is not as much waste as entered here in the Accounts - There is Cultivable Waste in Dry lands - Some of the Wet lands are cultivated annually & some - Sort of good quality The average in one of the Villages as particularly the following Table for 1940 Fasli from There is not three The entire Ayen Village is Valued at one - The average Wet annually for Village is - 7-5 3 per Acre calculated for a period of 15 years previous to Fasli 1270 - Punjah rate vary from 11-3 to 0 13 6 per The soil of this Village is mixed the correct boundaries of the entire Ayen Village -

The consideration of the foregoing will be seen from the valuation of the Village as follows

Dry 160 Acres cultivated at 6 per Acre	390		
Wet 14 Acres 118 Cubic Cents at Rate 10 per	11-3		
		401	3 0
Dry 160 Acres cultivated at 12 Annas	120		
Dry 11 Acres 27 Cubic Cents at 6 Annas	2-13-2		
		122-13	-2
Cultivable waste Rate 2 12		3-1	-0 -2
