 All the above transactions proved to be bonafide enjoyed proved.

Valuation

VIII The lands depend upon bank of moderate size. It is in repair. It is fed by a Temple Stream. The Tank is filled annually. Security of Water is not
 well generally. The alluvial nature of land & soil is unsuited to waste among the stems of Pomegranate. At the time of the settlement they admitted themselves -
 that these lands are under cultivation & that they claimed them with the stems of Pomegranate from ignorance - Now 28 acres of P. are cultivated annually -
 Some of the old lands are fallow & some are under cultivation. Pomegranate is in small patches. No Tobacco is raised - The Village is a pretty good state -
 The contiguous Ayer Villages are Melmarani & Yadayathur - The average (P. & S.) of these Villages comes to 5-14-8 & 8-10-0 per acre. The average of these two
 Villages comes to 5-12-0 per acre. The average of the Ayer Villages in 1850 was 0-10-0 per acre. The average income of the Village is 500 Rs per
 year as per statement of the Melmarani. In consideration of the fertility of soil & the proximity of the Village to the market & the railway line
 I frame the valuation of the Village as shown in the margin.
