1 This one of the Darmasamans in the zemindary of Tirunagari. This was granted by the zemindar of 11 to the person of 13 for subsistence -
- This is a hereditary grant. This is in unimpaired possession of its holders since the date of the grant. This has a Patta on two plain paper leaves -
- This document is registered in the late Registers found of Madras on the 30th July 1809, as it appears from a printed certificate granted to the Promissor -
- in A.D. 1809 by the Patta, the then Register. The Village is supported by all the accounts of 12-16 sold over about the area now about the boundaries -
- on the part of the zemindar Patta. Hence the area of 18 fathoms & 6 paces is confirmed here. The boundaries now inserted in the Vernacular Register -
- correspond to those in the ^{old} Patta. The boundaries of this Village were not recorded in the Patta of 1246 -
- This Village consists of equal Patta. They are enjoyed as shown in the margin. The Lands are undivided - Patta is paid on the number of Patta -
- equally & permanently -
- The real Grant. The late Patta of the person of 16 of 16, who is the elder Brother of the person -
- of the person of 2 & 3 of 13 -

See preceding note —

MS.

III. Belands depend upon two Landes - of small size - They are in repair - They are good for
Single Crops - The Mahoganians say that $6\frac{1}{2}$ per of Bel land as waste in Mattabland -
Belands are not cultivated Land - The Village is an insignificant one -
 - I have no materials to enter here the average amount of the adjacent Agri lands -
 Soil is of a medium character generally - The average income of the Village as per statement of the
Mahoganians is 30 Rupies per annum - This is not true - In consideration of the fertility of soil &
 I frame the valuation of the Village as follows - No Rupia valuation in this Village -
 Wet - 10 per cultivated annually at 6 Rupies per acre - 60 -
 Wet $3\frac{1}{2}$ per Mattabland & at 2 Rupies per acre - 7 - 67 -
